

SENATOR

JANET CRUZ

Florida Families First Agenda

Commonsense agenda to strengthen and secure Florida's hard-working families

Investing in Our Veterans

(Senate Bill 782 - Educational Opportunities for Disabled Veterans)

OVER **1.5 MILLION**
VETERANS IN FLORIDA

Reduce financial burden of earning a college degree by providing earned coverage of all tuition expenses that are not covered by the GI Bill. This is long overdue and essential to help our veterans receive a quality education to begin a career as a civilian and to help their families get ahead.

“Get the Lead Out”

(Senate Bill 834 - Drinking Water in Public Schools)

Any Florida school built before 1987 has lead pipes connected to water sources. This bill commissions a study with OPPAGA to fully analyze this issue and present solutions to the legislature so we can get the lead out of school drinking water.

1.1 MILLION
STUDENT DRINKING
STATIONS WITH LEAD
CONTAMINATED PIPES.

Standing Up for Florida's Working Families

(Senate Bill 788 - Scrutinized Companies)

FLORIDA RANKS 49TH OUT OF 50 FOR LENGTH OF
TIME NEEDED TO PAY OUT UNEMPLOYMENT BENEFITS.

Florida taxpayers paid Deloitte \$77 million to create our unemployment benefit website and it is a complete failure. Now the state is forcing taxpayers to pay Deloitte another \$135 million for a new contract. This senate bill forces corporations to have transparent and competitive contracts that require full accountability and prohibits contracting with any vendor who has clearly failed to do their job.

Diabetic Protection Act

(Senate Bill 786 -
Prescription Insulin Drugs)

2.4M
DIABETICS IN FLORIDA.

Insulin is a life-saving drug but because of price gouging by drug manufacturers a \$10 vial can cost a patient up to \$275. This senate bill will cap insulin copays at \$100 a month for all prescriptions to manage diabetes.
