Agriculture and Consumer Services, the Department of Environmental Protection, the Department of State, or the Fish and Wildlife Conservation Commission, whenever there is a deficiency that would render the LATF temporarily insufficient to meet its just requirements, including the timely payment of appropriations from that trust fund. These funds must be expended solely and exclusively in accordance with Art. X, s. 28, State Constitution. This transfer is a temporary loan and the funds must be repaid to the trust funds from which the moneys were loaned by the end of the 2015-2016 fiscal year. The provisions subject to delayed implementation relate to mandatory blower door testing for residential buildings or dwelling units, second fire service access elevators, and mechanical ventilation for residential buildings or dwelling units.

Sections 70 and 71 reenact amendments to s. 216.292, F.S., that remove language limiting scope of legislative review of “five percent” budget transfers. The Legislature would continue to be

able to object that a proposed action exceeds delegated authority or is contrary to legislative policy and intent.

Section 72 provides that no state agency may initiate a competitive solicitation for a product or service if the completion of such competitive solicitation would require a change in law or require a change to the agency's budget other than a transfer authorized in s. 216.292(2) or (3), F.S., unless the initiation of such competitive solicitation is specifically authorized in law or in the General Appropriations Act or by the Legislative Budget Commission.

Section 73 authorizes the Executive Office of the Governor (EOG) to transfer funds in the appropriation category "Special Categories-Risk Management Insurance" between departments in order to align the budget authority granted with the premiums paid by each department for risk management insurance.

Section 79 provides that, in order to implement the issuance of new debt authorized in the 2015-2016 General Appropriations Act, and pursuant to the requirements of s. 215.98, F.S., the Legislature determines that the authorization and issuance of debt for the 2015-2016 fiscal year should be implemented and is in the best interest of the state.

Section 80 provides that funds appropriated for travel by state employees be limited to travel for activities that are critical to each state agency's mission. The section prohibits funds from being used to travel to foreign countries, other states, conferences, staff-training, or other administrative functions unless the agency head approves in writing. The agency head is required to consider the use of teleconferencing and electronic communication to meet needs of activity before approving travel.

Section 81 provides that the EOG is authorized to transfer funds appropriated in any appropriation category used to pay for data processing in the General Appropriations Act between agencies in order to align the budget authority granted with the utilization rate of each department.

Except for transfers approved pursuant to section 81 and 82 of the Implementing Bill, agencies are prohibited from transferring funds from a data center appropriation category to a category other than a data center appropriation category.

Section 84 provides that the EOG is authorized to transfer funds appropriated in the appropriations category "expenses" between agencies in order to allocate a reduction relating to SUNCOM Services.

Sections 85 and 86 reenact amendments to s. 110.12315, F.S., that: modify copayments associated with the state employees' group health insurance program consistent with decisions that have been made in the General Appropriations Act; authorize the Department of Management Services, for the state employees' prescription drug program, to negotiate the pharmacy dispensing fee, to implement a 90-day supply limit program for certain maintenance drugs at retail pharmacies for state employees under certain circumstances, and to maintain a list of maintenance drugs and preferred brand name drugs; and provide that copayments for state employees for a 90-day supply of prescription drugs at a retail pharmacy will be the same as a 90-day supply through mail order.

Section 87 specifies that no section of the bill shall take effect if the appropriations and proviso to which it relates are vetoed.

SB 2508-A — Medicaid

by Lee

The bill:

- Amends the definition of “rural hospital” to delete the provision that hospitals classified as “sole community hospitals” under federal guidelines are automatically qualified as rural hospitals under Florida law if they have no more than 340 beds.
- Authorizes the Agency for Health Care Administration (AHCA) to receive intergovernmental transfers (IGTs) of funds from local governmental entities for the advancement of the Medicaid program and directs AHCA to seek federal waiver authority to maintain a low-income pool under parameters provided in the General Appropriations Act for offsetting shortfalls in Medicaid reimbursement or paying for otherwise uncompensated care.
- Confirms and clarifies existing law regarding reimbursement provisions, provider notification requirements, and the administrative challenge process for Medicaid inpatient and outpatient hospital rates. Specifies that the written notice of the hospital reimbursement rates provided by AHCA constitutes final agency action for purposes of administrative challenges to the hospital reimbursement rates.
- Reenacts three statutory provisions for the purpose of incorporating the bill’s clarifications to reimbursement provisions, provider notification requirements, and the administrative challenge process for Medicaid inpatient and outpatient hospital rates.
- Removes community intermediate care facilities for the developmentally disabled from the list of providers for which AHCA is required to set rates at levels that ensure no increase in statewide expenditures resulting from changes in unit costs.
- Provides that quality assessments paid by nursing homes to AHCA are due on the 20th of each month, instead of the 15th of each month as under current law.
- Creates the Graduate Medical Education Startup Bonus Program within the Statewide Medicaid Residency Program (SMRP). In any fiscal year in which funds are appropriated for the startup bonus program, hospitals eligible to participate in the SMRP may apply for up to \$100,000 per newly created residency slot that is dedicated to a physician specialty in statewide supply/demand deficit. Such physician specialties and subspecialties are those identified in the General Appropriations Act.
- Amends statutes relating to the Disproportionate Share Hospital (DSH) program and requires AHCA to use the average of the 2007, 2008, and 2009 audited disproportionate share data to determine each hospital’s Medicaid days and charity care for the 2015-2016 fiscal year, instead of the average of the 2005, 2006, and 2007 data as under current law.
- Amends the Statewide Medicaid Managed Care program to:
 - Provide that achieved savings rebates that are refunded to the state by Medicaid managed care plans will be placed in the General Revenue Fund, unallocated;

SB 2516-A — Implementation of the Water and Land Conservation Constitutional Amendment

by Senator Lee

The bill:

- Implements Art. X, s. 28, State Constitution. The constitutional amendment requires that 33 percent of documentary stamp tax revenue be distributed into the Land Acquisition Trust Fund (LATF) within the Department of Environmental Protection (DEP) and prohibits funds from the LATF from being used for other than specified purposes provided in the amendment. In addition, the amendment prohibits the comingling of the LATF with the General Revenue Fund.
- Restructures trust funds to implement the constitutional requirement that documentary stamp taxes directed for environmental purposes must not be comingled with the General Revenue Fund. The bill also ensures that the documentary stamp taxes are not comingled with other revenue sources and can be tracked from distribution into the LATF to appropriations within the General Appropriations Act. The bill terminates certain trust funds currently receiving documentary stamp tax revenue intended for expenditure on environmental programs and redirects those moneys and moneys from other sources deposited into those terminated trust funds to other appropriate trust funds. The terminated trust funds include within the:

 - Repeals the existing distributions of documentary stamp taxes to terminated trust funds that serve environmental purposes other than the distribution to the LATF.
 - Removes the existing documentary stamp tax distribution for payments in lieu of taxes to local governments.
 - Maintains the existing effective percentage distributions to the State Transportation Trust Fund and the Department of Economic Opportunity's Grants and Donations Trust Fund, while reducing the actual distribution to these trust funds.

- Increases the percentage distributions to the State Housing Trust Fund so that the same dollar amounts are distributed to that trust fund as would have been distributed under current law.
- Maintains the percentage distribution from the State Housing Trust Fund to the Local Government Housing Trust Fund.
- Specifies that funds in any LATF must be invested separately with the interest deposited into the General Revenue Fund.
- Revises the Land Acquisition Trust Fund within the DEP and the FWC to comply with the constitutional amendment.
