For competitive solicitations for construction services, the bill prohibits a local ordinance or regulation that prevents the participation of specified entities in the bidding process based upon: (1) maintaining an office or place of business within a particular local jurisdiction; (2) hiring employees or subcontractors from within a particular local jurisdiction; or (3) prior payment of local taxes, assessments, or duties within a particular local jurisdiction. The prohibitions apply if such solicitations will be paid for with any state-appropriated funds.

The bill provides that the definition of “public works project” applies to pre-bid prohibitions to activities that exceed $1 million in value and that are paid for with any state-appropriated funds. The bill prohibits the state or any political subdivision that contracts for a public works project from preventing a certified, licensed, or registered contractor, subcontractor, or material supplier or carrier, from participating in the bidding process based on the geographic location of the company headquarters or offices of the contractor, subcontractor, or material supplier or carrier submitting a bid on a public works project or the residences of employees of such contractor, subcontractor, or material supplier or carrier.

The bill requires the Office of Economic & Demographic Research (EDR), beginning with the annual assessment due January 1, 2022, to include an analysis of the expenditures necessary to repair, replace, and expand water-related infrastructure in their annual assessment of Florida's water resources and conservation lands.

By June 30, 2022, and every five years thereafter, the bill requires each county, municipality, or special district providing wastewater or stormwater services to develop a needs analysis for its jurisdiction over the subsequent 20 years. The analysis must be compiled and submitted to EDR, which must evaluate the compiled documents for the purpose of developing a statewide analysis for inclusion in the annual assessment due January 1, 2023. This bill provides that the analysis requirement applies to a rural area of opportunity as defined in s. 288.0656, F.S., unless such requirement would create an undue economic hardship for the county, municipality, or special district in the rural area of opportunity.

If approved by the Governor, these provisions take effect July 1, 2021.

CS/CS/HB 1137 — Information Technology Procurement

by State Affairs Committee; Government Operations Subcommittee; and Rep. Fabricio and others (CS/CS/SB 1448 by Appropriations Committee; Governmental Oversight and Accountability Committee; and Senator Jones)

The bill expands the powers, duties, and functions of the Florida Digital Service (FDS).

The bill requires the FDS to establish technical standards to ensure that state agencies’ information technology (IT) projects comply with the enterprise architecture.

The bill decreases the cost threshold that triggers the FDS oversight of cabinet agency IT projects from $25 million to $20 million and removes the requirement that a cabinet agency IT project impact one or more other agencies before triggering the FDS project oversight.

The bill requires the FDS to include in its IT-related policies a requirement that IT commodities and services purchased by the state meet the National Institute of Standards and Technology Cybersecurity Framework.

For an IT project where project oversight is required, the FDS must include in its IT-related policies a requirement that independent verification and validation (IV&V) be employed throughout the project lifecycle. Entities providing IV&V may not have a technical, managerial, or financial interest.

For state agency IT projects totaling $10 million or more, a state agency must provide written notice to the FDS of any planned procurements. For these IT projects, the FDS must participate in the development of specifications and recommend modification of any planned procurements to ensure it complies with the enterprise architecture and must participate in post-award contract monitoring.

The bill provides that if an agency issues a request for quote (RFQ) to purchase information technology commodities, consultant services, or staff augmentation contractual services from the state term contract, for any contract with 25 approved vendors or fewer, the agency must issue a RFQ to all vendors approved to provide such commodity or service. For any contract with more than 25 approved vendors, the agency must issue a RFQ to at least 25 of the vendors approved to provide such commodity or contractual service.

Beginning October 1, 2021, and annually thereafter, the Department of Management Services must prequalify firms and individuals to provide IT staff augmentation contractual services on a state term contract.

If approved by the Governor, these provisions take effect July 1, 2021.

The bill expands the duties and responsibilities of the Florida Digital Service (FDS) relating to the state’s cybersecurity governance framework.

The bill defines “cybersecurity” to mean the protection afforded to an automated information system in order to attain the applicable objectives of preserving the confidentiality, integrity, and availability of data, information, and information technology (IT) resources. The bill creates new, and amends current, cybersecurity-related duties and responsibilities of the DMS. The bill also expands the responsibilities of each state agency head in relation to cybersecurity.

The bill prohibits a social media platform from willfully deplatforming a candidate for political office and allows the Florida Elections Commission to fine a social media platform $250,000 per day for deplatforming a candidate for statewide office and $25,000 per day for deplatforming any other candidate, in addition to the remedies provided in ch. 106, F.S. The Department of Management Services is required to maintain the Antitrust Violator Vendor List of the names and addresses of the people or affiliates who have been disqualified from the public contracting and purchasing process. The Attorney General is authorized to place an entity on the Antitrust Violator List on a temporary basis under specified circumstances. The bill provides for exceptions from the applicability of the antitrust violator provisions.

A social media platform that fails to comply with the requirements under the bill may be found in violation of the Florida Deceptive and Unfair Trade Practices Act by the Department of Legal Affairs. Additionally, a user of a social media platform may bring a private cause of action against a social media platform for failing to apply consistently certain standards and for censoring or deplatforming without proper notice.
