

The Florida Senate

Local Funding Initiative Request - Fiscal Year 2018-2019

1. **Title of Project:** Bonita Springs Southern Flow-ways Construction

2. **Senate Sponsor:** Kathleen Passidomo

3. **Date of Submission:** 11/20/2017

4. **Project/Program Description:**

This project is for the Design and Construction of multiple flow-ways to reconnect the regional historic southern storm water sheet flow to the Cocohatchee watershed. Because of previous land development, sheet flows have been redirected westerly into the Imperial River's watershed that historically has flown south into the Cocohatchee watershed. The Imperial River overflowed its banks during Hurricane Irma, flooding Bonita Springs and impacting 4,775 individual residences and inundating 430 homes with up to 5ft of water. Neighborhoods remained impassable from standing waters for 4 - 5 weeks after Hurricane Irma. As an emergency measure, pumps were set by the South Florida Water Management District to send water down the unimproved Logan Boulevard Right of Way. The Logan Boulevard roadway is currently under design with construction scheduled for the summer of 2018; this project involves evaluation, design, & construction of 2 southern flow-ways, to include gated structures.
