11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

This project aims to renovate approximately 4,100 square feet of an existing hospital into a Special Needs
Shelter. The renovations will maintain the existing center corridor, adding handicap accessible restroom
facilities with showers, storage and a new exit discharge. This project will provide adequate accommodations for all of our registered special needs residents during shelter operations.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

Provide a safe emergency shelter for residents with special needs during evacuations or catastrophic events. This project will enable the County to have better control over the readiness, safety and environment while caring for these residents.

d. What are the direct services to be provided to citizens by the appropriations project?

Special needs residents require certain necessities that are not provided by a standard evacuation shelter. Consistent control of the indoor climate, consistent electricity, special cots, and medical assistance will be provided. This project, under the Board of County Commissioners, will provide a dependable location in the County that will ensure its preparedness to handle our special needs residents. According to our engineering firm Southard Engineering, Inc., who submitted a signed and stamped structural evaluation, the building is suitable to be retrofitted as a hurricane shelter.

- e. Who is the target population served by this project? How many individuals are expected to be served?

 Special Needs Patients (100-200)
- f. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?
 - Special needs residents require specific accommodations when relocating from their own environment. These accommodations are critical to their survival. They require provisions for medical equipment and medically needy services, such as electricity, climate control, food and special beds.
- g. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

 The standard penalties in place for noncompliance are sufficient.
- 12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.
