

Local Funding Initiative Request - Fiscal Year 2018-2019

1. Title of Project: Jacksonville Beach Coastal Hardening Project-Stormwater Outfalls and Dune Walkovers

Senate Sponsor: Aaron Bean
 Date of Submission: 12/01/2017

4. Project/Program Description:

Protection of private and public property along 4.1 miles of oceanfront by closing breaks in the dune line. This project raises the height of up to 49 dune walkovers and extends the length of existing stormwater outfalls 10 feet seaward of the dune line. As the dunes have grown over time, the existing dune walkovers are too low and stormwater outfalls do not extend beyond the dunes. These two things cause breaks in the dune system during high tides, storm surge, and excessive rain caused by extreme weather events like northeasters and hurricanes. Those breaks then cause flooding from the Atlantic Ocean.

5. State Agency Contacted? No

Input Amounts:			

10. Is future-year funding likely to be requested?

No

11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

Funding for design and construction of dune walkover improvements to increase their height and length to be greater than the height of the dunes. Concurrent design and extension of existing backup stormwater ourfalls to be 10 feet seaward of the dune line. Project will decrease/minimize breaks in the coastal sand dune system that provides protection from high tides, storm surge and flooding related to hurricanes and extreme weather events.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

N/A

c. How will the funds be expended?
