11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?
   There is a great need for space for the expanded children's and youth programs that have increased in participants over the years.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?
   This expansion will provide space to serve the increase in children and youth patrons. The expansion includes programs and the availability of a larger selection of reading materials and technology available.

c. What are the direct services to be provided to citizens by the appropriations project?
   This expansion will enrich the cultural experience for children and youth through reading materials, special programs that include the arts, and interactive technology.

d. Who is the target population served by this project? How many individuals are expected to be served?
   The target population is the children and youth of Miami Shores Village with an expected reach of 400-800 individuals.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?
   There will be enough space so that the library no longer needs to limit participation due to limited space for some of the programs which can be measured by the number of patrons who participate and visit the library.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?
   Return funds to the State.
