**b. What are the activities and services that will be provided to meet the intended purpose of these funds?**

Big Brothers Big Sisters Association of Florida through our network of BBBS member agencies provides mentoring services and support for youth between the ages of 5 and 18, in elementary, middle or high school. Youth are determined at-risk of academic failure because of factors such as poor academic performance, a history of truancy, economic disadvantage, among others. Every youth is assessed and evaluated for participation in the Big Brothers Big Sisters program. Mentors are recruited, background screened and trained in BBBS guidelines for mentoring youth. BBBS local agencies assign professional mentor managers to monitor and support volunteer mentors and activities. Mentor managers are in regular contact with the youth, the parent or guardian of the youth and volunteer mentors. Through contact with the school and educational professionals, the mentor managers monitor progress of each youth participant and completion of the annual youth development plan.

**c. What are the direct services to be provided to citizens by the appropriations project?**

The funding for BISS is spent for direct program services and support for youth who are at-risk academically. With an annual cost per youth served of \$1,250, BBBS local agencies will support delivery of one-to-one mentoring to individual youth. Mentor support activities including intake of volunteers and youth, assessments of prospective youth and volunteers; background screening; case plan and youth development planning; case management monthly support; volunteer mentor training; community and school needs assessments; activity reports, tracking and safety evaluations; fiscal and program accountability activities.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

BISS provides mentoring services and support for youth in grades K- 12 (between the ages of 5 and 18), in elementary, middle or high school. Youth are determined at-risk of academic failure because of factors such as poor academic performance, a history of truancy, economic disadvantage, among others. BBBSAF will match an estimated 2,784 youth with mentors during the project year and during the project year every youth matched with a mentor will attend mentor sessions with their mentor.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

BISS incorporates the first goal of the State's K-20 Strategic Education Plan, which is to garner the "highest student achievement, as indicated by evidence of student learning gains at all levels." BISS measures gains across four domains related to student learning gains, including academic performance, school attendance, grade level promotion, and behavioral outcomes – all of which lead to improved student learning. To ensure success, children and youth who participate in BISS receive one-on-one weekly and/or bi-weekly mentoring sessions with regular homework and academic assistance as the key focus. Mentors address social, confidence and behavioral issues and encourage their Little to behave well in class, and provide positive role modeling on how to interact with others. Outcomes are measured in relation to a baseline risk assessment determining an incremental measure of gains in youth academic performance and attitudes during participation in the Big Brothers Big Sisters program.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**

The performance deliverables include the number of mentor sessions, the number of training sessions, and the number of youth served. A penalty for not reaching a goal for each performance measure is a financial
