1. **Title of Project:** City of Pahokee 1st Street Stormwater Improvements

2. **Senate Sponsor:** Gayle Harrell

3. **Date of Submission:** 02/01/2019

4. **Project/Program Description:**
   Constructing a reliable stormwater infrastructure system which includes sidewalks while also improving the quality of life and protection against possible hurricanes. Storm water surges will be significantly reduced and controlled during severe weather occurrences. Prevention of flooding during natural disasters would significantly decrease for this community located directly on shores of Lake Okeechobee.

5. **State Agency to receive requested funds:** Department of Environmental Protection

   State Agency Contacted? No

    | Executive Director/Project Head Salary and Benefits |             |        |
11. Program Performance:

a. **What is the specific purpose or goal that will be achieved by the funds requested?**

   The goals of this project are to design and construct stormwater improvements and pollutant control systems to reduce pollutants discharging from street runoff into waterways, as well as reduce flooding in private properties and City streets and walkways.

b. **What are the activities and services that will be provided to meet the intended purpose of these funds?**

   Stormwater surges into local businesses and residential areas will be significantly reduced and controlled during rainy season, and during severe weather occurrences such as tropical storms and hurricanes. In addition, the main street corridor is the economic lifeline for the downtown area for this community and city. The proposed plans to renovate other amenities and mix-use space for which future exploration for business development will be possible if acceptable stormwater prevention measures could be restored to modern codes and operation.

c. **What are the direct services to be provided to citizens by the appropriations project?**

   Stormwater improvements, sidewalks, flood control measures.

d. **Who is the target population served by this project? How many individuals are expected to be served?**

   City residents, businesses and visitors.

e. **What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

   Improved stormwater management. Comparing the before and after results of access to traffic, decrease street and sidewalk flooding. Monitoring of water being retained in structures or swales for longer periods before running off into adjacent drainage ducts, and monitoring of less frequent flooding in roadways and walkways.

f. **What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**
Failure to meet deliverables without notification of good reasoning will result in financial penalties as described in contract.
