11. Program Performance:

a. **What is the specific purpose or goal that will be achieved by the funds requested?**
   Environmental Protection Reduce point source pollution discharge to nearby surface waters including Choctawhatchee Bay and its watershed from leaking, aged wastewater infrastructure.

b. **What are the activities and services that will be provided to meet the intended purpose of these funds?**
   Centralized wastewater treatment systems are ongoing source of nutrients and bacteria to Choctawhatchee Bay and upgrading or retrofitting out of date systems would reduce the frequency and severity of pollution events (NWWFMD 2017). Currently the County has approx. 50 miles of aging vitrified clay (VC) gravity sewer mains proximate to the bay and which are at or beyond their useful lives. Approximately 7 miles have already been rehabilitated with cured-in-place pipe (CIPP) since 2015 by OCWS. This funding will go toward completion of the project.

c. **What are the direct services to be provided to citizens by the appropriations project?**
   Preserving the emerald green waters the region has become known for, will contribute to economic growth in the County and adjacent areas, especially its fishery and ecotourism.

d. **Who is the target population served by this project? How many individuals are expected to be served?**
   Florida tourists and citizens of Okaloosa County, population over 200,000

e. **What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**
   Reduce point source pollution discharge to nearby surface waters including Choctawhatchee Bay and its watershed from leaking, aged wastewater infrastructure. Outcomes will be measured by changes in the seagrass coverage in Choctawhatchee Bay; and changes in the frequency and/or severity of sewer overflow or pipe failure incidents as well as changes in ambient water quality (nutrient and bacterial concentrations) in Santa Rosa Sound and Choctawhatchee Bay adjacent to the project area;

f. **What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**
   Revocation of Funds
12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.
