11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?
Funding is for two full-time coordinators and operating expenses for the Florida Donated Dental Services (DDS) Program through the Dental Lifeline Network.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?
The coordinators will facilitate appointments for the comprehensive dental treatment between those indigent Floridians who are disabled, elderly, and/or medically compromised.

c. What are the direct services to be provided to citizens by the appropriations project?
Those in the Donated Dental Services Program will receive much needed and sometimes life saving comprehensive dental care.

d. Who is the target population served by this project? How many individuals are expected to be served?
Citizens who are disabled, elderly, and/or medically compromised. Statewide.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?
Aside from the coordination of dental care for those that are some of the most needy, the program will help reduce costs in emergency room settings, which is typically where these individuals end up if they can't get access to a dentist. A program summary report and financial report for the fiscal year will be created to document performance data for the project.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?
None.
