1. **Title of Project:** Conservation Hub at the IRL Conservation Campus

2. **Senate Sponsor:** Debbie Mayfield

3. **Date of Submission:** 02/13/2019

4. **Project/Program Description:**
   Design and construction of the Conservation Hub portion of the IRL Conservation Campus and Aquarium. This roughly 15,000 square foot facility will house the East Coast Zoological Society's marine conservation programs and will provide a collaborative learning and research facility on the Banana River Portion of the IRL. In this facility researchers from academic institutions like the University of Central Florida and The Florida Institute of Technology will share classroom and meeting spaces as they work with citizens and students to address challenges facing the Indian River Lagoon. This cross-pollination of ideas and approaches is critical to developing effective methods of improving the health of the lagoon. The location of this facility, on the IRL but adjacent to Port Canaveral and route 528, combined with unique resources provided by the aquarium, make this the ideal site to support this work.

11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?
   Goal: To provide a shared work space where researchers from different institutions can work collaboratively with each other, conservation NGOs, students and citizens to develop effective education and conservation programs related to restoring the Indian River Lagoon.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?
   The facility will include common work spaces, meeting rooms, classroom, wet labs and storage that can be used by the entire community. Digital displays on the first floor will explain the latest scientific research concerning the IRL and its current status. The upper floor will house the conservation staff associated with the aquarium. It will be free and open to the public.

c. What are the direct services to be provided to citizens by the appropriations project?
   Access to informational displays, trained volunteers and research experts to answer their IRL related questions and help them choose the best homeowner and business-related behaviors to help the IRL. Dedicated meeting rooms that can be used for community events and meetings. Opportunities to engage in actual IRL conservation projects.

d. Who is the target population served by this project? How many individuals are expected to be served?
   University Researchers: 24 annually, University Students: 240 annually, Elementary, middle and High School Students: 500 annually, Concerned Citizens: 1,000 annually

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?
   We will track all use of the facility and projects originating from the space.
f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Return of funds

12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.

The same entity will receive and own the facility: The East Coast Zoological Society of Florida dba Brevard Zoo.
