11. Program Performance:
   a. What is the specific purpose or goal that will be achieved by the funds requested?
      The allocation of these funds will help to reduce the number of emergency department visits by uninsured
      patients having dental problems while also reducing the prescribing of pain medication.
   b. What are the activities and services that will be provided to meet the intended purpose of these funds?
      Emergency and Urgent Dental services will be provided to adults and children throughout Duval County.
   c. What are the direct services to be provided to citizens by the appropriations project?
      Dental Services provided to the uninsured that cannot be addressed in the Emergency Room.
   d. Who is the target population served by this project? How many individuals are expected to be served?
      The target population is underserved adults and children within Duval County. We are anticipating being able to
      serve at least 800 patients.
   e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome
      will be measured?
      Recognition that oral health and general health are interlinked is essential for determining appropriate oral
      health care programs and strategies at both individual and community care levels. Common Risk Factor
      Approach to measuring outcomes addresses the underlying social determinants for oral health promotion.
   f. What are the suggested penalties that the contracting agency may consider in addition to its standard
      penalties for failing to meet deliverables or performance measures provided for in the contract?
      As long as the funds are used to provide dental services, hire dental staff, and improve access to dental services
      for children and adults no penalties should be accessed.

12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the
    relationship between the owner(s) of the facility and the entity.
