1. Title of Project: Nurse-Family Partnership Program Implementation

2. Senate Sponsor: Debbie Mayfield

3. Date of Submission: 02/20/2019

4. Project/Program Description:

The Nurse-Family Partnership (NFP) Program is an evidence-based community health program for first-time, high-risk pregnant women and girls who are living in poverty. Each mother is partnered with a registered nurse early in pregnancy and each mother receives ongoing visits that continue through her child's second birthday. The NFP changes the future for the most vulnerable babies and families by equipping the BEST person for the job, MOM, to become a confident parent. Our intensive and scientifically proven program is delivered at the most critical time for mom and baby, by a specially trained clinical expert.

11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

NFP's overarching goals are: 1. Improve pregnancy outcomes; 2. Improve child health and development; and 3. Improve the economic self-sufficiency of the family. NFP has detailed, Florida specific data and savings projections from: Reduced child maltreatment; Increased educational achievements; Fewer subsequent children on Medicaid; Reduced smoking while pregnant; Reduced Preeclampsia; Reduced Prematurity; Fewer Injuries; and Increased Immunizations.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

Implementation of the Nurse-Family Partnership model, a nurse visitation program for high-risk pregnant girls and women that improves maternal health, improves child well-being and development, and enhances individual educational and economic achievement.

c. What are the direct services to be provided to citizens by the appropriations project?

Prenatal, Postpartum, and Well Woman Follow up; Screenings and Assessments - Depression, Intimate Partner Violence, Substance Use, Strengths and Risks (STAR), Developmental and Dyadic Assessment, and Interventions (mother and child); Oral Health - Dental care and education (mother and child); Nutrition, BMI, and general health and wellness (mother and child); Medical Diagnoses - High blood pressure, Asthma, and Diabetes; Sexual Health - cervical cancer screens and tests, STI follow up; Substances - Smoking Cessation, Alcohol, and other drug use; Mental Health - Depression, other diagnoses, and medications; Well child visits, Immunizations, and

Ill Child Follow up; Use of Primary Care, ER, and Urgent Care; Breastfeeding and Infant/Child Nutrition; and Child Safety and injury prevention.

d. Who is the target population served by this project? How many individuals are expected to be served?

First-time, high-risk pregnant women who are living in poverty and their babies.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The Nurse-Family Partnership has extensive data, research studies and replication analyses showing the program's impact over the past 40 years. NFP has repeatedly demonstrated: 82% increase in labor participation by the mothers; Lower Medicaid and Food Stamp usage among NFP families, resulting in a 9% reduction in Medicaid costs and an 11% reduction in Food Stamp costs; 46% increase in father presence and partner stability; 31% reduction in closely-spaced subsequent pregnancies; 48% reduction in child abuse and neglect; 38% fewer cases of pregnancy-induced hypertension; and a 56% reduction in emergency room visits for accidents and poisonings. In Florida: 91% of babies were born full-term; 87% of mothers initiated breastfeeding; 95% of children received all recommended immunizations; 77% of NFP participants do not have a subsequent pregnancy within 18 months; and 47% of women over 18 years of age are working at intake and 67% are working at 24 months postpartum.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Incremental reductions in payments for less than 90% performance expectations or achievement of tasks (i.e hiring/training nurses). Repeated/egregious failures should result in contract cancellation/transfer.

12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.
