#### 11. Program Performance:

- a. What is the specific purpose or goal that will be achieved by the funds requested?
  - 1. Develop math fluency and evolving skills while also creating a focus on foundational problem solving for real-world math challenges 2. Improve math skills that will be evident in student achievement results 3. Provide administrators and teaches with math professional development and skills to improve their knowledge and effectiveness in math instruction
- b. What are the activities and services that will be provided to meet the intended purpose of these funds?

The Matific K-5 Math solution will have a positive impact on students and their teachers. For students our Math solution supports the mathematics foundational improvement needed for secondary education readiness and to also support their college and career path. For educators the movement from generalist in the area of Math to that of a more confident instructional impact as the support is crucial to the progress and outcome of the content and, ultimately, gains in the student achievement.

- c. What are the direct services to be provided to citizens by the appropriations project?
  - 1. Instructional software for K-5 students and teachers 2. Professional Development for administrators and educators
- d. Who is the target population served by this project? How many individuals are expected to be served?

  Grade school students
- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Growth in student Math achievement and educator knowledge and confidence in the same subject area through 1.) Pre- and post Math achievement benchmarks and 2.) Educator and administrator knowledge and
