LFIR # 1271

11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

This project will allow for the conversion of septic systems to municipal sewerage thereby allowing for economic growth in this stagnant business corridor.

b. What activities and services will be provided to meet the intended purpose of these funds?

The construction activities and Engineering services for the installation of the sanitary sewer system.

c. What direct services will be provided to citizens by the appropriation project?

Once the sewer line is constructed, public sanitary sewer services will then be abutting these properties and be available for connection.

d. Who is the target population served by this project? How many individuals are expected to be served?

16 properties with many businesses within each one will benefit from this Public Utility improvement. Close to 50 businesses in total will benefit from these improvements.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Economic growth, new construction, new Business Tax Receipts and licenses. And 100% elimination of antiquated and aged septic systems in this business district.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Liquidated Damages of the contract.
