The technology being sought must not include the application of any chemicals or power based system. In addition, the technology solution being sought must not include the application of any native or non native bacteria or micro-organisms to the soils or water bodies being affected by contamination. Lastly, the technical solution must not use any filters requiring off site dumping or material. Hence the technology solution being sought must be 100% chemical-free, 100 percent non biological.
## 10. Details on how the requested state funds will be expended
