

LFIR # 1682

- 1. **Project Title** Miami Shores Engineering Design for Sewers in Shores Estates
- 2. Senate Sponsor Jason Pizzo
- 3. Date of Request 12/09/2019

4. **Project/Program Description**

State Agency contacted?

The goal of this project is to convert the current septic tank system to a sewer system in the Shores Estates subdivision as sea level rise has given way to septic system failure at several residences.

5. State Agency to receive requested funds

Department of Environmental Protection

6. Amount of the Nonrecurring Request for Fiscal Year 2020-2021

Type of Funding	Amount	
Operations	375,000	
Fixed Capital Outlay	000	
Total State Funds Requested	375,000	

○ Yes ● No

7. Total Project Cost for Fiscal Year 2020-2021 (including matching funds available for this project)

Type of Funding	Amount	Percentage	
Total State Funds Requested (from question #6)	375000	77.0 %	
Matching Funds			
Federal	00	0 %	
State (excluding the amount of this request)	00	0 %	
Local	112,500	23 %	
Other	00	0 %	
Total Project Costs for Fiscal Year 2020-2021	487,500	100 %	

8. Has this project previously received state funding? \bigcirc Yes \odot No

If yes, provide the most recent instance:

Fiscal Year	Amo	Specific		
(уууу-уу)	Recurring	Nonrecurring	Appropriation #	Vetoed

9. Is future-year funding likely to be requested? O Yes O No

If yes, indicate nonrecurring amount per year.

11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

To eliminate sea level rise intrusion into the current septic tank system currently used by residential properties in the Shores Estates subdivision.

b. What activities and services will be provided to meet the intended purpose of these funds?

The funds will provide a septic to sewer wastewater system design that will allow wastewater to be disposed of properly.

c. What direct services will be provided to citizens by the appropriation project?

The design will facilitate a sewer system to replace the failing drain fields in the area and eliminated the backflow of sewage into residential homes due to sea level rise and flooding.

d. Who is the target population served by this project? How many individuals are expected to be served?

Residents of the Shores Estates subdivision impacted by sea level rise and flood water intrusion. There are approximately 300 residents in this area.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Eliminate complaints of sewage overflow inside residential homes. This can be measured by no complaints and inspection of the properties during rainfall events and high tides.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

A portion of funds would be withheld until the error is corrected.
