Local Funding Initiative Request

Fiscal Year 2020-2021

LFIR # 2051

1. **Project Title** Marianna Public Safety Administration Complex

2. **Senate Sponsor** George Gainer

3. **Date of Request** 01/03/2020

4. **Project/Program Description**

The City of Marianna has NO hardened facility for First Responders and desperately needs funding for the construction of a Public Safety Administration Complex that meets all current Florida Building Code requirements. The facility will replace two (2) existing facilities that are nearly 80 and 60 years old and do NOT meet State, Federal, and Local Code Requirements. The New Public Safety Administration Complex will allow the City to eliminate health and safety issues associated with providing police and fire protection to the citizens of Marianna and Jackson County. It will allow for better protection of the general public from environmental and/or criminal harm. The City services will be more streamlined for business use, will help make Marianna more enticing to citizens and business considering economic and community development improvements, which leads to job opportunities. The new facility will provide a healthier, more functional work environment. (SEE ATTACHED)

5. **State Agency to receive requested funds** Department of Law Enforcement

State Agency contacted? ☐ Yes ☒ No

6. **Amount of the Nonrecurring Request for Fiscal Year 2020-2021**

Type of Funding	Amount
Operations	000
Fixed Capital Outlay	6,000,000
Total State Funds Requested	6,000,000

7. **Total Project Cost for Fiscal Year 2020-2021 (including matching funds available for this project)**

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	6000000	86.0 %
Matching Funds		
Federal	00	0 %
State (excluding the amount of this request)	00	0 %
Local	1,000,000	14 %
Other	00	0 %
Total Project Costs for Fiscal Year 2020-2021	7,000,000	100 %

8. **Has this project previously received state funding?** ☒ Yes ☐ No

If yes, provide the most recent instance:

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		
2018-19	00	500,000	1234A	No

9. **Is future-year funding likely to be requested?** ☐ Yes ☒ No

If yes, indicate nonrecurring amount per year.

11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The City of Marianna has NO hardened facility for First Responders and desperately needs funding for the construction of a Public Safety Administration Complex that meets all current Florida Building Code requirements. The facility will replace two (2) existing facilities that are nearly 80 and 60 years old and does NOT meet State, Federal, and Local Code Requirements. The New Public Safety Administration Complex will allow the City to eliminate health and safety issues associated with providing police and fire protection to the citizens of Marianna and Jackson County. It will allow for better protection of the general public from environmental and/or criminal harm. The City services will be more streamlined for business use, will help make Marianna more enticing to citizens and business considering economic and community development improvements, which leads to job opportunities. The new facility will provide a healthier, more functional work environment. (SEE ATTACHED)

b. What activities and services will be provided to meet the intended purpose of these funds?

The activities and services that will be provided upon completion of the new Public Safety Administration Complex will be full time Fire and Police services for the City of Marianna and Jackson County. The City is the only full time fire department within the County and the police department provides assistance to both Jackson County and the Jackson County School Board.

c. What direct services will be provided to citizens by the appropriation project?

Direct services provided as a result of this project are fire and police, first responder assistance. Presently both departments operate out of facilities that are 80 and 60 years old and have multiple health and safety issues associated with them.

d. Who is the target population served by this project? How many individuals are expected to be served?

The entire population of Jackson County (48,599), will be served, in that the City has interlocal agreements for both fire and police services. The City has the only full time fire service in the County. The building will also serve as a centrally located regional area for public meetings held by the City and its citizens, as well as a central training point for Federal, State and other local agencies located in Northwest Florida. FDEP, FDOT, Florida Rural Water, etc. It should also be noted Jackson County, the City of Marianna has been designated by the Governor as a Rural Area of Opportunity, (RAO) formally Rural Area of Critical Economic Concern (RACEC).

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected outcome is to have a Fire and Police and Administrative Complex that meets all Federal, State, and Local Code requirements for health, safety and accessibility. The primary way of measuring performance is to have the City Building Official identify the numerous Federal, State and Local Code issues resolved with the new facility. Also, keep accurate databases of information on new jobs, economic development, regional meeting, fire and police data, and track the information over time to see annual changes. This can be done by making these requirements as part of the funding award. The project will also provide measured improvements to the infrastructure within the RAO designated community. It will eliminate the requirement to house the City First Responders in 80 and 60 year buildings, that are not hardened facilities and do NOT meet code requirements.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

The contracting agency, City of Marianna will establish a Critical Path with date specific targets for pre-development. Once bids are received and awarded for the project, the contract will have specific contract completion dates; if not met, the contractor will be subject to Liquidated Damages, assessed on a daily basis.
