

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2020-2021

LFIR # 2191

1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

4. **Project/Program Description**

City of Panama City - Goose Bayou Sewer and Water System Expansion. The proposed funding request is to construct a proposed sewer collection and water distribution system expansion in the Goose Bayou area of Panama City. With the water distribution system expanded into this area it will take residents off their potable drinking well systems, thus relieving demand from the Florida Aquifer, also allowing Panama City to bill for water usage more efficiently. The area's current wastewater management calls for on-lot septic tanks, with the proposal of a sewer expansion the septic tanks can be taken offline. The local bodies of water have been recorded to have higher levels of fecal coliform and other bacteria found in human waste due to the local septic tanks leeching into nearby waterways. With the removal of the septic tanks water quality should improve.

5. **State Agency to receive requested funds**
 State Agency contacted? Yes No

6. **Amount of the Nonrecurring Request for Fiscal Year 2020-2021**

Type of Funding	Amount
Operations	<input style="width: 80%;" type="text" value="1,162,330"/>
Fixed Capital Outlay	<input style="width: 80%;" type="text" value="000"/>
Total State Funds Requested	1,162,330

7. **Total Project Cost for Fiscal Year 2020-2021 (including matching funds available for this project)**

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	<input style="width: 80%;" type="text" value="1162330"/>	<input style="width: 80%;" type="text" value="13.0"/> %
Matching Funds		
Federal	<input style="width: 80%;" type="text" value="00"/>	<input style="width: 80%;" type="text" value="0"/> %
State (excluding the amount of this request)	<input style="width: 80%;" type="text" value="00"/>	<input style="width: 80%;" type="text" value="0"/> %
Local	<input style="width: 80%;" type="text" value="7,730,000"/>	<input style="width: 80%;" type="text" value="87"/> %
Other	<input style="width: 80%;" type="text" value="00"/>	<input style="width: 80%;" type="text" value="0"/> %
Total Project Costs for Fiscal Year 2020-2021	8,892,330	100 %

8. **Has this project previously received state funding?** Yes No

If yes, provide the most recent instance:

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		
<input style="width: 80%;" type="text"/>				

9. **Is future-year funding likely to be requested?** Yes No

If yes, indicate nonrecurring amount per year.

LFIR # 2191

11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

The funds requested will assist with funding of the Panama City sewer collection system and drinking water distribution system expansion. With the proposed sewer collection system expansion the local septic tanks can be taken offline. The local bodies of water have been recorded to have higher levels of fecal coliform and other bacteria found in human waste due to the nearby septic tanks leeching into the waterways. With the removal of the septic tanks water quality should improve. With the water distribution system expanded into this area it will take residents off their potable drinking well systems, thus relieving demand from the Florida Aquifer, also allowing Panama City to bill for water usage more efficiently.

- b. What activities and services will be provided to meet the intended purpose of these funds?

Surveying, engineering, permitting, and plant expansion design will be performed.

- c. What direct services will be provided to citizens by the appropriation project?

Their will be transfered to City maintained

- d. Who is the target population served by this project? How many individuals are expected to be served?

The neighborhoods in the Goose Bayou area, approximately 372 houses are to be served by this project.

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit of the project is with the water distribution system expanded into this area it will take residents off their potable drinking well systems, thus relieving demand from the Florida Aquifer. Also allowing Panama City to bill for water usage more efficiently. The expected benefit of the expanded sewer collection system includes the local septic tanks can be taken offline. The local bodies of water have been recorded to have higher levels of fecal coliform and other bacteria found in human waste due to the nearby septic tanks leeching into the waterways. With the removal of the septic tanks water quality should improve.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Loss of funding.
