Local Funding Initiative Request

Fiscal Year 2020-2021

LFIR # 2296

1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

4. **Project/Program Description**

Construction of stormwater system improvements and pollutant control systems on 1st Street. The outdated stormwater system is under a number of stresses. These include aging infrastructure, gaps in the collection and disposal system, and reduced capacity. To address these critical issues the City will construct new and replace existing infrastructure, including new drains, pipes, exfiltration trenches and sidewalks.

11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

To design and construct stormwater improvements and pollutant control systems to reduce flooding and pollutants discharging from street runoff onto public and private properties, City streets, walkways and into waterways.

- b. What activities and services will be provided to meet the intended purpose of these funds?

Stormwater surges into local business and residential areas will be significantly reduced and controlled during rain occurrences and during severe weather events. In addition, future amenities and mix-use projects will be possible if enhanced stormwater improvements are installed in this area.

- c. What direct services will be provided to citizens by the appropriation project?

Stormwater improvements, sidewalks, flood and pollutants control measures. Improved infrastructure protects all citizens and increases property values.

- d. Who is the target population served by this project? How many individuals are expected to be served?

6,000+ City residents not including businesses and visitors.

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improved stormwater management. Comparing the before and after results of traffic flow, decrease property, street, sidewalk flooding. Monitoring of water being retained in structures or swales for longer periods before running off into adjacent drainage ducts, and monitoring of less frequent flooding in roadways, properties and walkways.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Failure to meet deliverables without notification of good reasoning will result in financial penalties as described in contract.
