11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

Install automatic flushing units throughout the city's distribution system to enhance water quality. The automatic flusher allows the City to comply with flushing requirements allowing treated water to maintain a safe chlorine residual and remain aesthetically pleasing.

- b. What activities and services will be provided to meet the intended purpose of these funds?

Automatic flushing units will allow the treatment facility to operate more efficiently due to the automation of the flushing units at low water consumption periods.

- c. What direct services will be provided to citizens by the appropriation project?

The flushing units have the ability to monitor water quality and increase movements for better tasting water. They also help in the removal of mineral particles that have settled in water mains.

- d. Who is the target population served by this project? How many individuals are expected to be served?

This project will benefit 100% of the City's service area. The City service areas outside of city limits (Unincorporated Miami-Dade County).

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

This project will assist treatment plant operators with mainline flushing requirements. The automatic flusher can be programmed to operate during low water consumption periods, allowing the treatment plant to operate more efficiently.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

N/A there are not penalties expected
