If yes, indicate the amount of funds received and what the funds were used for.

The College has received approximately \$8.6 million in federal CARES Grant funding. The vast majority of this money was for student financial aid, tuition refunds/waivers, technology and software costs, replacement of bookstore revenues, personal protective equipment, sanitizing and disinfecting, and related costs.
None of the money was for the purposes of this request.

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Seminole State College proposes a significant upgrade of its existing short-term (12 months or less) training programs in Plumbing, Electrician helper, HVAC (Level I and II) and building trades technologies. New programs in carpentry and machining technologies will be added, and a welding program will be reinstated after a 3-year hiatus.
Requested funds would be used only for instructional equipment.

b. What activities and services will be provided to meet the intended purpose of these funds?

This request is strictly for the purchase of training tools and equipment in order to provide a real-world training experience in a laboratory setting.
A detailed list of equipment to be purchased, by program, is available upon request.

c. What direct services will be provided to citizens by the appropriation project?

Provision of short-term training in high-demand, high-skills, high-wage occupations that will: (1) increase the number of workforce-ready graduates; (2) prepare fully-trained technicians in the occupational areas detailed above; and (3) support emerging skills for the future of the construction industry (e.g., modularization and pre-fabrication).
Our programs have over a 90% job placement rate.

d. Who is the target population served by this project? How many individuals are expected to be served?

College students, high-school dual enrollment students, economically disadvantaged, jobless persons.
The College estimates that the number of students served will be approximately 266 annually.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Provide real-world, hands-on training experience in a lab.
Measure by the purchase of needed equip, the # of program completers, and the # of certificates awarded.
Increase # of trained workers entering the labor force.
Measure by the # of program completers, graduates, placement rates, and the wages of persons placed.
Provide the train necessary for participants to find jobs in the construct trades industry.
Measure by the # of program completers/graduates, the # of placements, and the \$ earned upon entry into the profession.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Seminole State College has standard performance clauses in all of its contracts which assure that all work will be completed in accordance with the work plan and list of deliverables, including regarding the payment and withholding of funds as necessary.
It is not anticipated that additional penalties will be needed.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

Seminole State College is a public institution of higher education, offering education leading to Associates and Bachelor's Degrees, as well as numerous shorter-term, work-related certificates.
The taxpayers of Florida, through the State, own and benefit from the building.
