The Florida Senate Local Funding Initiative Request Fiscal Year 2021-2022

LFIR # 1036

10). Has the ent	tity requesting	this project receiv	ed any federal as	ssistance related	to the COVID-19	pandemic?
	No						

If yes, indicate the amount of funds received and what the funds were used for.

11. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits	Gallery Floor Manager \$32,000 Gallery Floor Educators \$45,760 Steam Team Outreach Educators \$35,000	112,760
Expense/Equipment/Travel/Supplies/ Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits	Exhibit Technician \$17,500 x 2	35,000
Expense/Equipment/Travel/Supplies/ Other	New gallery lighting \$20,000 Sound system \$15,000 Outreach branded materials \$9,500 Previously owned camper RV or small bus \$20,000 Gallery signage \$10,000	74,500
Consultants/Contracted Services/Study	Evaluator \$20,000	20,000
Fixed Capital Construction/Majo	r Renovation:	·
Construction/Renovation/Land/ Planning Engineering		0
Total State Funds Requested (m	ust equal total from question #6)	242,260

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Great Explorations would like to improve the overall guest experience on its gallery floor and within its community outreach program. By improving this, even more families in the area will be impacted. Due to COVID-19, the outreach program had to temporarily pause since large crowds and events were no longer safe. In order to provide the community and at-risk neighborhoods with the social and emotional learning that comes from hands-on play, Great Explorations needs to add a mobile space to provide even more room for visitors to play and explore. By converting a used recreational vehicle or camper into a mobile outreach museum, and targeting these areas of the community, Great Explorations will be able to still provide the creative learning these children might not otherwise be exposed to.

b. What activities and services will be provided to meet the intended purpose of these funds?

Although Great Explorations already offers daily educational programming, by enhancing current space overall visitor experience will be improved. Adding branded marketing supplies, including equipment such as tents and signage, for the outreach programming will increase visibility at public events. Great Explorations is also requesting funding for a previously owned camper RV or small school bus. The Museum on the Move initiative will target at-risk and low-income community areas to provide hands-on learning at no cost to the families. Families that live at or below the poverty level make up 14% of the surrounding area and will never be exposed to informal learning like Great Explorations.

c. What direct services will be provided to citizens by the appropriation project?

The Florida Senate Local Funding Initiative Request Fiscal Year 2021-2022

LFIR # 1036

Great Explorations Children's Museum has been offering hands-on learning for over 30 years. Improvements made at the facility will enable the continuation of the mission of stimulating learning through creativity, play, and exploration. A Dutch study proved that brighter lighting produced more successful outcomes among learners in mathematics, reading, and writing than when students had standard lighting. Great Explorations is dedicated to making a difference in the community and empowering future leaders. By offering more community outreach, in these unprecedented times, it will encourage the love of learning in an informal setting. Studies show that hands-on learning is far more appealing to kids than sitting in front of a computer or whiteboard.

d. Who is the target population served by this project? How many individuals are expected to be served?

Great Explorations Children's Museum serves ages 0-10 and their caregivers. This age demographic would continue to be targeted in the community efforts with offerings for older siblings as well. Each year, Great Explorations serves on average 220,000 children and families both onsite and through community outreach programs. This project would allow Great Explorations to serve another 220,000 children and families.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Great Explorations hopes to increase attendance to the museum and our outreach programs. By targeting the most needed community areas, Great Explorations will be able to make a larger impact on the children who would benefit most from hands-on, cognitive learning. Great Explorations will work with an evaluator to measure outcomes for the best possibility of success.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

R	levert funds back to the state.	

relationship between the owners of the facility and the entity.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the
