Due to deterioration and the serious existing conditions in the project area, this project is critical for the safety of local residents as well as the economic growth and job creation for the Town of Medley. The Town of Medley is requesting funding for roadway and drainage improvements, including the reconstruction of the roadway, milling, resurfacing, and widening of the existing pavement to accommodate curb & gutter, signage, pavement markings as well as pedestrian sidewalks and bicycle lane.

The project also includes drainage improvements with additional catch basins, swales and exfiltration trenches and other infrastructure improvements for water quality.

d. Who is the target population served by this project? How many individuals are expected to be served?

The general public and businesses will be served by this project. We anticipate more than 800 individuals to be served by this project.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

This project promotes the economic growth of the industrial redevelopment of an under-utilized area within the Town of Medley as it will increase business opportunities and bring social and economic benefits to the local residents as well as visitors. This project will improve the Town's road network, will allow the easier flow of traffic, promote multimodal mobility, emergency evacuation, and improve connectivity and accessibility for the transportation of goods and the circulation of heavy equipment. The benefits of this project will be measured by improving the socio-economic impact to local residents and visitors and commercial/industrial activity by assessing time savings in traveling and the impact of the roadway improvements to the public based on the number of users, the traffic volume and density as well as the redirection of traffic from other roads.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The contract will have standard language that will include liquidated damage or debarment.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The Town of Medley is the sole owner, and will be responsible for any maintenance, once the project has been completed.
