1. Project Title: Medley Tobie Wilson Park Canal C-6 Bulkhead Wall Project

2. Senate Sponsor: Manny Diaz

3. Date of Request: 12/28/2020

4. Project/Program Description:

This project includes the retrofitting of stormwater infrastructure to stop current untreated runoff from the Tobie Wilson property from polluting the SFWMD C-6 (Miami Canal). This project includes the implementation of a stormwater management plan that includes the installation of catch basins and exfiltration trenches to improve the water quality and stop and minimize the runoff that is currently discharging into SFWMD C-6 (Miami Canal) untreated as well as the construction of about 200 LF of seawalls to protect the area from further erosion and sediment control. The goals of this project are to: reduce the amount of sedimentation; reduce levels of fecal coliforms and other pathogens; improve level of service; reduce TMDLs to improve water quality; improve performance of existing drainage system; prevent erosion and transportation of sediments. The proposed improvements will also reduce the existing flooding problems and increase storage capacity within the stormwater infrastructure.

5. State Agency to receive requested funds: Department of Environmental Protection

State Agency contacted? No

6. Amount of the Nonrecurring Request for Fiscal Year 2021-2022

9. Is future funding likely to be requested? No

   a. If yes, indicate nonrecurring amount per year.

   b. Describe the source of funding that can be used in lieu of state funding.
10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

No

If yes, indicate the amount of funds received and what the funds were used for.

11. Details on how the requested state funds will be expended

Total State Funds Requested (must equal total from question #6) 350,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The project’s main objective is to implement a stormwater management system that would improve the water quality and maximize the removal of pollutants that are currently discharging into the Miami Canal. The main goals of this project are to: reduce the amount of sedimentation; reduce levels of fecal coliforms and other pathogens; improve level of service; reduce TMDLs to improve water quality; improve performance of existing drainage system; prevent erosion and transportation of sediments. The proposed improvements will also reduce the existing flooding problems, increase storage capacity within the stormwater infrastructure as well as enhance stormwater water quality. The stormwater management has been designed with the goal of improving storage capacity within the property with additional catch basins and exfiltration trenches to alleviate potential flooding problems which could be used as a primary treatment mechanism.

b. What activities and services will be provided to meet the intended purpose of these funds?

The stormwater management has been designed with the goal of improving storage capacity within the property with additional catch basins and exfiltration trenches to alleviate potential flooding problems which could be used as a primary treatment mechanism. This project will provide a cost effective solution to the existing drainage problems by modifying swales and using less piping and materials.

c. What direct services will be provided to citizens by the appropriation project?
This project will benefit residents from local and adjacent areas as well as other visitors by improving the seawall of the Tobie Wilson Community Center and improving the water quality of the runoff to the Miami Canal.

d. Who is the target population served by this project? How many individuals are expected to be served?

The general public and residents are the target population for this project. Most of the 2,500 local residents in the Town of Medley are low to middle income retirees and the project will also serve other residents and visitors from adjacent communities.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefits of this project are water quality improvements, drainage improvements as well as community awareness through a public education program. The methodology for this project includes structural as well as non-structural components to provide a comprehensive approach. Stormwater treatment technology combined with improved hydrologic flow and public education will be the hallmark of this project's success.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The contract will have standard language that will include liquidated damage or debarment.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The Town of Medley is the sole owner, and will be responsible for any maintenance, once the project has been completed.
14. Requestor Contact Information
   a. First Name  Roberto  
   b. Organization  Town of Medley 
   c. E-mail Address  rmartell@townofmedley.com 
   d. Phone Number  (305)887-9541 

15. Recipient Contact Information
   a. Organization  Town of Medley 
   b. Municipality and County  Miami-Dade 
   c. Organization Type
      - [ ] For Profit Entity
      - [ ] Non Profit 501(c)(3)
      - [ ] Non Profit 501(c)(4)

16. Lobbyist Contact Information
   a. Name  Nelson Diaz 
   b. Firm Name  The Southern Group 
   c. E-mail Address  diaz@thesoutherngroup.com 
   d. Phone Number  (305)887-9541
Please complete the questions below for Water Projects only.

17. Have you applied for alternative state funding?

☐ Waste Water Revolving Loan
☐ Drinking Water Revolving Loan
☐ Small Community Wastewater Treatment Grant
☐ Other (please specify)
☑ N/A

18. What is the population economic status?

☐ Financially Disadvantaged Community (ch. 62-552, F.A.C)
☐ Financially Disadvantaged Municipality (ch. 62-552, F.A.C)
☐ Rural Area of Economic Concern
☐ Rural Area of Opportunity (s. 288.0656, Florida Statutes)
☑ N/A

19. What is the status of construction?

Pending

20. What percentage of the construction has been completed?

0

21. What is the estimated completion date of construction?

05/20/2022
