Local Funding Initiative Request

Fiscal Year 2021-2022

LFIR # 1069

1. Project Title
2. Senate Sponsor
3. Date of Request

4. Project/Program Description

Around 2009 the Town of Hypoluxo adopted updates to its comprehensive plan which included the removal of existing septic systems to protect the environment and public health as a main objective. The Town, in partnership with the Lake Worth Lagoon Initiative, completed the removal and sewer connection of the remaining residential systems located adjacent to the Lagoon. To complete the original objective of removing all remaining septic systems, the Town of Hypoluxo has identified the locations of these facilities and completed preliminary planning. The project will remove the existing tanks at two locations and provide a connection to the municipal sewer system that services the rest of the Town.

5. State Agency to receive requested funds
- State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2021-2022

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	350,000
Total State Funds Requested	350,000

7. Total Project Cost for Fiscal Year 2021-2022 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	350,000	51%
Matching Funds		
Federal	333,660	49%
State (excluding the amount of this request)	0	0%
Local	0	0%
Other	0	0%
Total Project Costs for Fiscal Year 2021-2022	683,660	100%

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?
- a. If yes, indicate nonrecurring amount per year.
- b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2021-2022

LFIR # 1069

If yes, indicate the amount of funds received and what the funds were used for.

11. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	The project will convert approximately 18 septic systems and connect these commercial properties to the municipal wastewater treatment system.	350,000
Total State Funds Requested (must equal total from question #6)		350,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The project will reduce septic loading into the Lagoon. The reduction of pollutants into the Lagoon will improve water quality and enhance the long-term health of the eco-system.

- Reduce Septic Loading
- Improve Water Quality
- Enhance the long-term health of the Lagoon
- Reduce public health risks

b. What activities and services will be provided to meet the intended purpose of these funds?

The Town will procure a qualified contractor to complete the scope of work and meet the intended purpose of these funds.

c. What direct services will be provided to citizens by the appropriation project?

The project will provide safe and effective sanitary sewer services to those using the impacted septic systems.

d. Who is the target population served by this project? How many individuals are expected to be served?

The project takes place at two commercial areas within the Town. Once completed, the project will impact several hundred people who use the wastewater systems daily at these businesses.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2021-2022

LFIR # 1069

The completion of the project will reduce pollutants entering the Lake Worth Lagoon and improve water-quality and long-term health of the natural resource. The project will also enhance economic development as the impacted commercial areas will become more attractive to development with central sewer systems.

In addition, the reduction of pollutants into the groundwater will protect the Hypoluxo Scrub, a Palm Beach County Natural Area. This 97-acre natural area is an important natural resource containing both protected animal and plant species. The project will also reduce the potential for pollutants to impact the wellfield zones located near the Mall and Scrub.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Penalties that may be considered should include financial consequences as well as an impact on future funding requests.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The owners of the septic system will not receive any capital outlay funding. While the funding will be used to indirectly benefit their businesses the Town and it's wastewater partner, the City of Boynton Beach, will maintain ownership and control over the new sewer systems.
