Construction/Renovation/Land/Planning Engineering	Project includes stormwater improvements to eliminate structural flooding and reduce roadway flooding. Includes engineering and construction.	1,000,000
Total State Funds Requested (must equal total from question #6)		1,000,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The funds requested will assist with funding of the improvements of the city's stormwater system to eliminate structural flooding of homes and businesses, as well as reduce roadway flooding.

b. What activities and services will be provided to meet the intended purpose of these funds?

Engineering and construction.

c. What direct services will be provided to citizens by the appropriation project?

The appropriation project will help with the funding of all proposed stormwater improvements.

d. Who is the target population served by this project? How many individuals are expected to be served?

The entire City of Lynn Haven, which has a population of 21,000

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit of the project is eliminating structural flooding and reducing roadway flooding. The way this benefit will be measured is by post-construction As-Built surveys, quality of life, and monitoring after extreme flooding events.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Loss of funding.
