1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

4. **Project/Program Description**

Our program is designed to create and formulate a long term work experience training program for individuals with autism and other developmental and intellectual disabilities in an educational setting. Our objective is to enhance transition planning and career development for these individuals.

Some of the innovative features of our program include: *Customized employment opportunities, work experiences, and transition planning for each student, driven by the student's interests, support needs, strengths, and contributions rather than by generic job descriptions and available openings. Customized implies flexibility and creativity enabling support staff to modify parameters and desired outcomes as the student's interests and skills evolve.

*Entrepreneurial options or self-employment as post school outcomes or career experience options for students, in addition to traditional wage employment.

*Linking employment vendors to the school to promote collaborative funding of employment.

This program makes possible the employment of individuals with disabilities that have been largely excluded from the employment market. In Executive Order 13-284, employment is the most cost effective and direct means available to help individuals achieve independence and self-fulfillment.

A
good
job
often
makes
the
difference
between
successful
community
living
and
a
high
cost institutional placement at public cost.

Employment is critical component to successful independent living in the community. A more direct benefit to the State of Florida and taxpayers is the avoidance of institutional and other high cost residential placement that comes from reliance on expensive publicly funded deep-end services. Bottom line, individuals with jobs contribute to the economy. We expect to serve from 51-100 individuals with developmental/intellectual disabilities with this program.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

By using the performance review from each individual client we can assess the effectiveness of their performance. This review is done on a monthly basis.

The
objectives
are
as
follows:

job
knowledge,
work
quality,
attendance/punctuality,
initiative, communication/listening skills, dependability.
The ratings are:
progressing, needs work, satisfactory, good, exceptional.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The agency's standard contract penalties are sufficient.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.
