2. Senate Sponsor
3. Date of Request

#### 4. Project/Program Description

The Lake Worth Lagoon Initiative (LWLI) was created to define and evaluate the status of the entire watershed and propose actions that would improve and protect the natural resources within the lagoon and watershed. LWLI is supported by Palm Beach County, South Florida Water Management District, Florida Department of Environmental Protection, Florida Inland Navigation District and the League of Cities, which have endorsed the LWL Management Plan to restore the Lagoon. This plan includes projects to restore sea grasses, mangroves and oysters, cap muck sediments, construct storm water control projects, and septic-to-sewer conversions. Revitalizing this important water body provides long-term environmental, recreational and economic benefits to the region. Each State dollar is matched at the local level on a minimum 50:50 cost-share basis. Through this program, over \$22 million in State funds and \$65 million in local funds have been dedicated to restoring the Lagoon.

**12. Program Performance**

**a. What specific purpose or goal will be achieved by the funds requested?**

Funds requested will support capital construction, land purchase from willing sellers, restoration projects and monitoring efforts designed to improve water quality, habitat quality and coastal resiliency within the Lake Worth Lagoon. The Steering Committee of the Lake Worth Lagoon Initiative, consisting of local government representatives as well as representatives from the Florida Department of Environmental Protection and the South Florida Water Management District, ranked the proposed projects based on priority need and beneficial impact to the Lake Worth Lagoon.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

Projects include storm water system improvements to reduce runoff and sediment loading into Lake Worth Lagoon, restoration projects to create and enhance habitat within the Lagoon, land acquisition and monitoring efforts. Funds will be utilized primarily for capital costs associated with the various projects, with a small percentage utilized to continue long-term monitoring efforts vital to assessing the health of the system and driving decisions on management and stewardship efforts.

**c. What direct services will be provided to citizens by the appropriation project?**

Direct and secondary improvements to water quality, habitat quality, sediment quality and coastal resilience. Projects will also result in transportation improvements via reductions in frequency and severity of nuisance/king-tide/sunny-day flooding.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

The target population served by this effort and associated projects includes the residents and numerous visitors of Palm Beach County and the local marine industry.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

Benefits will include the reduction of nutrient and sediment loading into Lake Worth Lagoon, along with the creation of coastal habitat to improve the water quality, ecological conditions and coastal resiliency of the Lagoon. Methodologies to measure expected benefits of these efforts include water quality and biological monitoring, the acreage of habitat created/restored and the acreage of private habitat acquired for conservation/preservation efforts.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

None. The Lake Worth Lagoon Initiative has a documented track record of success related to performance measures and deliverables associated with funds appropriated to support these efforts. Through this program's minimum 50:50 match commitment from participants, over \$22 million in State funds and \$65 million in local funds have been dedicated to restoring the Lagoon.

**13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.**

As a partner of the Lake Worth Lagoon Initiative, Palm Beach County serves as the vessel for the funding request. Owners to receive appropriations if awarded by way of this request include Palm Beach County and the Town of Lake Park.
