12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The goal of securing funds is to improve transportation options for the low-income, elderly, and disabled residents of Palm Beach County. Through reliable transportation residents are given the opportunity for economic mobility and to access important services in the community. The transportation disadvantaged buss pass program provides an affordable alternative to vehicle ownership which has become more important due to the current economic downturn. These passes encourage paratransit riders to also utliize fixed route services thus increasing efficiency across the entire public transit system.

b. What activities and services will be provided to meet the intended purpose of these funds?

Palm Tran conducts a thorough eligibility process of applicants to ensure that only qualified residents can access the discounted bus passes. Following income verification, customers are then able to purchase the discounted pass. Palm Tran staff continually provide education and outreach to customers regarding the application process so that funds are used to their fullest extent.

c. What direct services will be provided to citizens by the appropriation project?

The monthly distribution of a bus pass at a discounted price of \$15 to \$20 from the regular price of \$70 for 31 days of unlimited fixed route travel. Through the discounted pass, residents are able to directly access public transportation that includes over 30 fixed routes across Palm Beach County.

d. Who is the target population served by this project? How many individuals are expected to be served?

The transportation disadvantaged program seeks to provide transportation for those dependent upon others to obtain access to health care, employment, education, or other life-sustaining activities and for children who are handicapped or high-risk or at-risk as defined in the s. 411.202, F.S. Currently, around 7,000 residents utliize the discounted bus pass, but eligible applicants exceed that number. Palm Tran expects an increase in applicants due to the economic hardship caused by the COVID-19 pandemic.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Palm Tran tracks the number of individuals served under the program and number of passes sold. The measure of benefit will be the number of trips taken by participants in the programs and savings realized by having access to the pass. The annual review for re-certification will be the best measure of success. Individuals will go from the \$15 to the \$20 program and eventually no longer qualify due to increased income.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Funding should be curtailed from the agency if funds are not used in whole.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

n/a
