#### 12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The improvements will significantly decrease the towns's disposal exenses by reducing the amount of water hauled for biosolid disposal.

b. What activities and services will be provided to meet the intended purpose of these funds?

Engineering and permitting will be required to design and receive approval from FDEP to construct the system. Upon approval, the project will be publicy bid to obtain pricing by licensed contractors to install the system for use by the town.

c. What direct services will be provided to citizens by the appropriation project?

Improvements at the town's wastewater treatment facility. These improvements will decrease ongoing disposal costs and assist in managing the town's sewer rates.

d. Who is the target population served by this project? How many individuals are expected to be served?

The project will provide a town wide benefit.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Reduce biosolid hauling costs. The decrease in expenditures will be a direct result of the improvements.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Non payment of invoices.
