An appropriations request is being made for the museum's expansion within Little Haiti that involves the development of a mixed use museum facility that contributes to Miami's economic initiatives relating to transit oriented development of mixed use neighborhoods, such as Little Haiti, that are adjacent to proposed major transit corridors. The proposed project located in the heart of downtown Little Haiti is an innovative cultural arts incubator and entrepreneurial learning center focused on engaging the local community in global opportunities in cultural tourism and related businesses. The project is centered around three key program elements: 1) A museum exhibition and multipurpose space for community events. 2) A creative industries incubator dedicated to promoting entrepreneurship opportunities in both the creative industries and tourism sectors. 3) Lastly, retail space to promote local popup retail activity for local arts and culture entrepreneurs.
10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

No

If yes, indicate the amount of funds received and what the funds were used for.

11. Details on how the requested state funds will be expended

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Requested funding will be used for the design and predevelopment of the museum’s T.O.D. mixed use creative industries business incubator. The purpose of the proposed transit oriented development mixed use project is to serve as a neighborhood anchor that fosters innovation and entrepreneurship that contributes to the sustainability of the community and long term economic development, while also contributing to the broader regional economic impact and tourism for the state of Florida.

b. What activities and services will be provided to meet the intended purpose of these funds?

Activities and services that will be provided include a) design and engineering, surveys, pre-development assessments, planning and scheduling, and permitting fees for the museum's expansion; b) development of a sustainable long-term operations and programming plan; and c) workforce training and professional development to attract and retain new staff to the museum as well as other creative industries that will be served by the business incubator.

c. What direct services will be provided to citizens by the appropriation project?
The Haitian Heritage Museum's mixed use creative industries business incubator will create immediate jobs during the initial design and construction phases of the project. Upon the project's completion, local citizens will gain valuable access to relevant training and educational programs, technology, and resources to facilitate entrepreneurship, small business development, and long term job creation in Little Haiti and surrounding areas. Regional visitors will also have access and increased experiences in the Little Haiti neighborhood's rich culture and services.

d. Who is the target population served by this project? How many individuals are expected to be served?

Jobless persons, economically disadvantaged persons, university/college students, entrepreneurs, small businesses, and the general public (the majority of funds will benefit no specific group).

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

1) Enrich cultural experience - more people will have access and increased experiences in the Little Haiti neighborhood's creative industries, local culture, and arts. A record of museum visitorship will be maintained and compared on a quarterly basis.
2) Improve transportation conditions - This T.O.D. will enhance the walkability of the neighborhood for local residents and future transit users. Public transit ridership statistics will be obtained for the area from Miami-Dade Transit, together with surveys at the museum.
3) Increase or improve economic activity - The mixed use business incubator and retail development will create jobs and bring new businesses to the neighborhood. New job creation statistics will be measured, together with access and increased experiences in the Little Haiti rich local culture. The museum will work with GMCVB for assessments on tourist visits to Little Haiti.
4) Job creation.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Standard contract penalties will be sufficient.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

Haitian Heritage Museum is the proposed owner of the facility.
