Local Funding Initiative Request

Fiscal Year 2021-2022

LFIR # 1763

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

At Quantum Leap Farm (QLF), our mission is to improve quality of life, and cultivate human potential through equine-assisted therapies. We offer a robust set of programs that specialize in serving our military clients for their various needs. These include: Therapeutic Riding, Equine-Assisted Psychotherapy (EASE Program), 5-Day Military Retreats and Military Reintegration Family Fun Days. This funding request will help fill the gap in funding for our military programs in the upcoming year. As a point of our mission, QLF never charges military clients or their families to participate.

\$175,000 would cover the financial need in the following programs:

- (4 retreats or 32 veterans) 5-Day Military Retreats
- (210) Therapeutic Riding sessions
- (576) Equine-Assisted Self Exploration (EASE) Psychotherapy sessions or clients served in groups
- (350) Military service members and families through Family Fun Days

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Equine-Assisted Therapy Programs provided by Quantum Leap Farm will improve quality of life, and the physical, social and emotional well-being of military service members, veterans and family members. Specific programs will produce measurable improvements in self-confidence, healthy coping skills and stress management skills, and reductions in symptoms related to PTSD, depression and suicidal ideation.

b. What activities and services will be provided to meet the intended purpose of these funds?

Quantum Leap Farm will provide Equine-Assisted Therapy Programs and activities especially designed to support the physical, social and emotional well-being of military service members, veterans and their families. All Equine-Assisted Therapy Programs at Quantum Leap Farm are facilitated by qualified therapeutic riding instructors, or licensed and specially certified mental health and other medical professionals.

c. What direct services will be provided to citizens by the appropriation project?

Quantum Leap Farm's programs for military service members include an array of equine-assisted therapies including Therapeutic Horseback Riding, Equine-Assisted Psychotherapy (EASE Program), Family Fun and Re-integration Days and Therapeutic Retreats. (Please see attached program descriptions)

d. Who is the target population served by this project? How many individuals are expected to be served?

Quantum Leap Farm's programs for military service members, veterans and family members serves individuals and families navigating reintegration issues, living with post-traumatic stress, traumatic brain injury, chronic pain, suicidal ideation, and military sexual trauma among other service-related physical, intellectual, emotional and moral injuries. After funding is awarded, we expect to serve approximately 500 individuals a year. Specific data collected will vary from program to program.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Participants in all programs will self-report via questionnaires. Depending on which program they participate in, they will report on physical and emotional changes including their feelings of self-confidence, their repertoire of healthy coping skills and stress management skills, and on their overall quality of life. Participants in EASE or Retreat Programs will also complete psychosocial surveys/instruments designed to measure changes in symptoms related to PTSD, depression, and suicidal ideation.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

In a typical operational year (post-COVID), we will be able to service the clients as noted above and would expect that we will be able to provide positive measurable outcomes.
If circumstances change and we are not able to deliver service to these individuals in the numbers we anticipate and have a surplus of unused funds, we would recommend carrying over the funds to the next fiscal year and maintain programs.
If for some reason, we were unable to utilize funds, they would be returned.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.
