12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

There are miles of roads in the county that have inadequate and unsafe centerline striping for drivers, especially at night or in rainy weather. The purpose of this project is to refurbish the centerline striping and RPM's on what is considered the most hazardous roads within the county. Liberty County has one of the smallest budgets in the state and is unable to adequately fund a project to make these roads safer for drivers.

b. What activities and services will be provided to meet the intended purpose of these funds?

The activities will include soliciting a contractor and refurbishing and installing the centerline striping and RPM's on certain county roadways.

c. What direct services will be provided to citizens by the appropriation project?

The citizens will be provided much safer roadways.

d. Who is the target population served by this project? How many individuals are expected to be served?

The project will benefit the over 9,000 citizens of the county and the many drivers that pass through the county daily.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected outcome of this project is reduced crashes on county roads. Crash data will be the methodology to confirm this.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?
