## Local Funding Initiative Request

### Fiscal Year 2021-2022

LFIR # 1852

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

To conduct a study to assess the need for enhanced stormwater runoff repairs and improvements and to increase the water quality that is discharging into Bayou Chico. Bayou Chico is one of the most contaminated waterways in the state with a 10 square watershed that drains in to Pensacola Bay. Most of the surrounding area of Bayou Chico is urbanized, with older well-established residential and commercial-use subdivisions. This study will coincide with the other projects.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2021-2022

Type of Funding	Amount
Operations	37,000
Fixed Capital Outlay	0
<b>Total State Funds Requested</b>	<b>37,000</b>

7. Total Project Cost for Fiscal Year 2021-2022 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	37,000	100%
<b>Matching Funds</b>		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	0	0%
Other	0	0%
<b>Total Project Costs for Fiscal Year 2021-2022</b>	<b>37,000</b>	<b>100%</b>

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

If yes, indicate the amount of funds received and what the funds were used for.

Construction/Renovation/Land/Planning Engineering		0
<b>Total State Funds Requested (must equal total from question #6)</b>		<b>37,000</b>

#### 12. Program Performance

##### a. What specific purpose or goal will be achieved by the funds requested?

To conduct a study to assess the need for enhanced stormwater runoff repairs and improvements and to increase the water quality that is discharging into Bayou Chico. Bayou Chico is one of the most contaminated waterways in the state with a 10 square watershed that drains in to Pensacola Bay. Most of the surrounding area of Bayou Chico is urbanized, with older well-established residential and commercial-use subdivisions. This study will coincide with the other projects.

##### b. What activities and services will be provided to meet the intended purpose of these funds?

An engineering and construction consulting company qualified in the area will be hired to conduct a study on what will be required to do stormwater mitigation in the Bayou Chico area.

##### c. What direct services will be provided to citizens by the appropriation project?

Once the study is completed and shows the need for the stormwater mitigation and the mitigation is completed, this will reduce the pollution running off into Bayou Chico and will provide for a cleaner environment and waterway.

##### d. Who is the target population served by this project? How many individuals are expected to be served?

If the study show the need for mitigation, the immediate businesses and residences along Bayou Chico will benefit greatly by reducing flooding in the area and the contaminants and sediments that are harmful and draining in to the Bayou. Ultimately, it will benefit the citizens of the City of Pensacola and the City of Gulf Breeze who sits along these waterways that all tie together in the Escambia/Pensacola Bay area.

##### e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

# The Florida Senate

## Local Funding Initiative Request

### Fiscal Year 2021-2022

LFIR # 1852

The expected outcome is for the study to show the need to begin a mitigation project in the Bayou Chico area to reduce flooding in the area and the contaminants and sediments that are harmful and draining in to the Bayou. Additionally, if the study shows the need for mitigation, stormwater runoff improvements will help reduce nutrient and bacteriological impairments that are going in to the bayou that is causing contamination. Methodology: The study will either show the need for improvements or will not.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

Funding would be lost and the study would not be able to proceed.

**13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.**

**Please complete the questions below for Water Projects only.**

**17. Have you applied for alternative state funding?**

- ☐ Waste Water Revolving Loan
- ☐ Drinking Water Revolving Loan
- ☐ Small Community Wastewater Treatment Grant
- ☐ Other (please specify)
- ☒ N/A

**18. What is the population economic status?**

- ☐ Financially Disadvantaged Community (ch. 62-552, F.A.C)
- ☐ Financially Disadvantaged Municipality (ch. 62-552, F.A.C)
- ☐ Rural Area of Economic Concern
- ☐ Rural Area of Opportunity (s. 288.0656, Florida Statutes)
- ☒ N/A

**19. What is the status of construction?**

Ready to begin the study.

**20. What percentage of the construction has been completed?**

non-construction project

**21. What is the estimated completion date of construction?**

The study should not take more than 90 days to complete.
