4. Project/Program Description

The Underline consists of improvements to, and programming for, the 10-mile corridor existing within the Metrorail right-of-way from the Miami River North of the Brickell Metrorail Station to the Dadeland South Metrorail Station. This project is part of the Miami-Dade County Parks and Open Spaces System Master Plan and will serve to transform this area into a safe, fully functional urban trail and multi-purpose recreational space. The proposed improvements include enhancement of the existing bicycle/pedestrian pathway, the addition of native landscaping, hardscaping, lighting, signage, drainage, recreational facilities, amenities, and recreation related concessions. The improvements and amenities are designed to vastly improve the safety, aesthetics, comfort level, attractiveness, and public use of the area, provide enhanced integration of transit into this corridor, and improve connectivity between the surrounding communities and the urban core.

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The goals are to encourage residents, students, and visitors to walk, bike, and take transit to alleviate traffic congestion and to improve accessibility and safety.
This funding will support the construction and installation of non-transportation eligible components such as pavement and column signage and site furniture including but not limited to benches, drinking fountains, bike repair stations, and amenities.

b. What activities and services will be provided to meet the intended purpose of these funds?

Construction.

c. What direct services will be provided to citizens by the appropriation project?

Accessibility and connectivity to a world-class urban trail and public transportation with safe, off-road, separated pedestrian and bicycle paths, that includes lighting and signage within a 10-mile multi-modal corridor.

d. Who is the target population served by this project? How many individuals are expected to be served?

The funds requested are for direct services to citizens, residents, and visitors including but not limited to the elderly and pre-school, grade school, high-school, and university/college students. The number of individuals to be served is greater than 250,000.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Fiscal Year 2021-2022

LFIR # 1929

Improved physical health (increase physical activity), improve mental health (satisfaction with quality of life), enrich cultural experience (events and curriculum drawing residents to The Underline), education (education curriculum for 24 impacted schools), enhance the environment (lower CO2 levels), protect the general public from harm (improved pedestrian and bicycle safety), improve transportation conditions (reduce congestion on U.S. 1 - projected at 3.5%), increase economic activity (increased property values projected at 5% to 25%), increase tourism, and create job opportunities (projected over 1,000 new jobs). Outcomes will be measured by evaluation of attendance, health impact assessment, measurement of property values change, reduction in pedestrian and bicyclist conflicts, and increase in transit ridership.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Miami-Dade County has several standard strategies designed to mitigate lack of performance and deliverables. One of these strategies is liquidated damages which is being used for the construction of Phase 1 (from the Miami River to SW 13th Street).

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The owner of the facility is local government (Miami-Dade County).
