## Local Funding Initiative Request

### Fiscal Year 2021-2022

LFIR # 1981

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

To replace the existing force main with a 16-inch diameter subaqueous force main crossing of the Intracoastal Waterway. The existing force main conveys all wastewater collected on Singer Island at lift station 10 to the mainland lift station 1A. The RBUSD staff report that this pipe was constructed in the 1950's era. A failure of this pipeline, due to age or other factors, would result in loss of service and environmental damage if sewage was released into the intracoastal waterway.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2021-2022

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	590,000
<b>Total State Funds Requested</b>	<b>590,000</b>

7. Total Project Cost for Fiscal Year 2021-2022 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	590,000	16%
<b>Matching Funds</b>		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	3,000,000	84%
Other	0	0%
<b>Total Project Costs for Fiscal Year 2021-2022</b>	<b>3,590,000</b>	<b>100%</b>

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

If yes, indicate the amount of funds received and what the funds were used for.

### Fiscal Year 2021-2022

LFIR # 1981

#### 11. Details on how the requested state funds will be expended

Spending Category	Description	Amount
<b>Administrative Costs:</b>		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
<b>Operational Costs: Other</b>		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
<b>Fixed Capital Construction/Major Renovation:</b>		
Construction/Renovation/Land/Planning Engineering	Construction costs for the following: about 5500 feet of 16-inch HDPE and ductile iron force main dug parallel to the existing force main by horizontal directional drilling (HDD) and 6300 feet open cut.	590,000
<b>Total State Funds Requested (must equal total from question #6)</b>		<b>590,000</b>

#### 12. Program Performance

##### a. What specific purpose or goal will be achieved by the funds requested?

To replace the existing force main with a 16-inch diameter force main that crosses the Intracoastal Waterway and conveys all of the wastewater collected on Singer Island at lift station 10 to the mainland lift station 1A. The RBUSD staff report that this pipe was constructed in the 1950's era. A failure of this pipeline, due to age or other factors, would result in loss of service and environmental damage if sewage was released into the waterway.

##### b. What activities and services will be provided to meet the intended purpose of these funds?

Engineering design and preconstruction work, including topographic and benthic surveys, of a new force main in the intracoastal to service Singer Island customers.

##### c. What direct services will be provided to citizens by the appropriation project?

Wastewater service that is more resilient and less likely to have an adverse impact on the coastal environment regularly used by residents and visitors.

##### d. Who is the target population served by this project? How many individuals are expected to be served?

Approximately 7,400 customers served by RBUSD at Singer Island as well as thousands of visitors.

##### e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The likelihood of force main failure would be reduced and redundancy would be increased due to an additional force main. An assessment could measure the outcome and determine the condition of the existing force main for backup use.

##### f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

**Please complete the questions below for Water Projects only.**

**17. Have you applied for alternative state funding?**

- ☐ Waste Water Revolving Loan
- ☐ Drinking Water Revolving Loan
- ☐ Small Community Wastewater Treatment Grant
- ☐ Other (please specify)
- ☒ N/A

**18. What is the population economic status?**

- ☒ Financially Disadvantaged Community (ch. 62-552, F.A.C)
- ☒ Financially Disadvantaged Municipality (ch. 62-552, F.A.C)
- ☐ Rural Area of Economic Concern
- ☐ Rural Area of Opportunity (s. 288.0656, Florida Statutes)
- ☐ N/A

**19. What is the status of construction?**

Construction has not begun

**20. What percentage of the construction has been completed?**

0%

**21. What is the estimated completion date of construction?**

06/01/2022
