12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The rendering of culturally and linguistically competent legal services to low income families who otherwise would not have access to legal representation. Our ProSe project operated from the County Clerks office provides a special service, we assist the citizens who can not fill out the forms for actions such as ProSe divorces, adoptions, name changes, and child support. This allows for more efficient administration of the court dockets as the Judges are looking at well prepared complaints and petitions which reduces the time for the court attempt to understand the basis of the complaint when drafted by non professionals.

b. What activities and services will be provided to meet the intended purpose of these funds?

Any and all competent legal representation deemed necessary. The ProSe service makes access to the courts available to thousands who cannot have access without assistance. This program also allows for more efficient administration of the court dockets as the Judges are looking at well prepared complaints and petitions which reduces the time for the courts to attempt to understand the basis of the complaint when drafted by non professionals.

c. What direct services will be provided to citizens by the appropriation project?

Legal representation and guidance. Our attorneys and staff are all bilingual and can assist both the citizen and the clerks, who cannot give legal advise on how to prepare these forms. We are able to assist , the citizens, the clerks of Osceola county and the courts all at the same time. Effectively this expenditure is cost saving measure.
