

LFIR # 1068

1. Project Title	Key Colony Beach Stormwater Project
1. Project little	Key Colony Beach Stormwater Project

2. Senate Sponsor Ana Maria Rodriguez

3. Date of Request 09/27/2021

4. Project/Program Description

This is a request is for assistance for completing our stormwater project for Key Colony Beach. If funded we can complete the last 2.5 streets.

5. State Agency to receive requested funds

Department of Environmental Protection

State Agency contacted? No

6. Amount of the Nonrecurring Request for Fiscal Year 2022-2023

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	2,600,000
Total State Funds Requested	2,600,000

7. Total Project Cost for Fiscal Year 2022-2023 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	2,600,000	100%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	0	0%
Other	0	0%
Total Project Costs for Fiscal Year 2022-2023	2,600,000	100%

8. Has this project previously received state funding?

Fiscal Year	Amo	ount	Specific Appropriation #	Vetoed
(уууу-уу)	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

No	

No

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

If funded fully project will be complete. If not funded project will not be completed.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

No

If yes, indicate the amount of funds received and what the funds were used for.

LFIR # 1068

11. Details on how the requested state funds will be expended

Spending Category	ng Category Description				
Administrative Costs:					
Executive Director/Project Head Salary and Benefits		0			
Other Salary and Benefits		0			
Expense/Equipment/Travel/Supplies/ Other		0			
Consultants/Contracted Services/Study	Engineer for site and plan development	150,000			
Operational Costs: Other					
Salary and Benefits		0			
Expense/Equipment/Travel/Supplies/ Other		0			
Consultants/Contracted Services/Study		0			
Fixed Capital Construction/Majo	r Renovation:				
Construction/Renovation/Land/ Planning Engineering Construction of stormwater system on remaining streets left. 2.5 out of 15 streets remain.		2,450,000			
Total State Funds Requested (must equal total from question #6) 2,600,000					

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The proposed Phase 2-1 project will construct a stormwater collection and disposal system for the southerly drainage basin that extends approximately 1,000 feet north from the intersection of Ocean Drive. The system will be considered a stormwater treatment train consisting of a perforated PVC pipe swale system, followed by baffle boxes with hydrocarbon filter socks, to gravity injection wells. The existing roadway/shoulder areas will be enhanced with perforated pipe exfiltration trenches.

b. What activities and services will be provided to meet the intended purpose of these funds?

The long-range benefits of a completed stormwater system of an island city ensure the reduction in pollutants into the near shore waters. The stormwater project has proven to reduce the flooding threat from tropical events. The use of the injection wells and engineered swale installations assists in keeping the storm related pollutants from entering the near shore waters after a weather event.

c. What direct services will be provided to citizens by the appropriation project?

The long-range benefits of a completed stormwater system of an island city ensure the reduction in pollutants into the near shore waters. The stormwater project has proven to reduce the flooding threat from tropical events. The use of the injection wells and engineered swale installations assists in keeping the storm related pollutants from entering the near shore waters after a weather event.

d. Who is the target population served by this project? How many individuals are expected to be served?

As a tourist driven economy, clear cleaner waters ensure repeat recreational fisherman and water sports enthusiasts. Commercial fisheries charter boats, dive boats all rely on clean clear waters a verified outcome from the stormwater project the number served can only increase as our waters have less pollutants.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will

be measured?

Water quality survey conducted each year by DEP.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties

for failing to meet deliverables or performance measures provided for the contract?

All Florida State standards will be followed for contracts.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The owners are the residents and taxpayers of the Community.

Please complete the questions below for Water Projects only.

17. Have you applied for alternative state funding?

- □ Waste Water Revolving Loan
- Drinking Water Revolving Loan
- □ Small Community Wastewater Treatment Grant
- □ Other (please specify)
- ☑ N/A

18. What is the population economic status?

- □ Financially Disadvantaged Community (ch. 62-552, F.A.C)
- □ Financially Disadvantaged Municipality (ch. 62-552, F.A.C)
- □ Rural Area of Economic Concern
- □ Rural Area of Opportunity (s. 288.0656, Florida Statutes)
- ☑ N/A

19. What is the status of construction?

80%

20. What percentage of the construction has been completed?

80%

21. What is the estimated completion date of construction?

09/01/2023
