If yes, indicate the amount of funds received and what the funds were used for.

NCH received \$45,839,440 in Provider Relief Funds. These funds were used to mitigate the lost revenues associated with the cessation of elective procedures and other lost revenue generally associated with the impacts of the pandemic. The hospital also received \$7.9million in county-level pass through funds as reimbursement for COVID-19 expenses such as PPE, COVID-19 related equipment and creation of additional negative pressure treatment rooms. In contrast, NCH had a total uncompensated care amount of \$187,901,606 in 2020.

11. Details on how the requested state funds will be expended

Spending Category	Description	Amount					
Administrative Costs:							
Executive Director/Project Head Salary and Benefits		0					
Other Salary and Benefits		0					
Expense/Equipment/Travel/Supplies/ Other		0					
Consultants/Contracted Services/Study		0					
Operational Costs: Other							
Salary and Benefits		0					
Expense/Equipment/Travel/Supplies/ Other	The entire sum requested will be used to purchase the initial high-cost items for the program's startup. Significant investments in equipment, supplies, and technology are necessary for the Center to begin operations. The majority of the entire project's cost will be funded through local funds or philanthropy	1,999,998					
Consultants/Contracted Services/Study		0

Construction/Renovation/Land/ Planning Engineering		0					
Total State Funds Requested (m	Fotal State Funds Requested (must equal total from question #6) 1,999,998						

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

NCH Healthcare is the only non-profit hospital in Collier County, serving an area approximately 2,000 sq miles and servicing a population of 385,000 people. Simulation technology is increasingly being used to prepare health care practitioners for clinical experience. The simulation center we are constructing will serve both health care and the public through opportunities to utilize our simulation technology for other purposes.

b. What activities and services will be provided to meet the intended purpose of these funds?

Health care education, training, and practice will be the primary focus. Community use and health care related training will also be available to public & private entities (k-12 educators, law enforcement, first responders, local businesses). One of the important components will be the broad access by outside groups to learn first aid, CPR, interactions with disabled populations, and other medical or inter-personal interactions.

c. What direct services will be provided to citizens by the appropriation project?

Practitioners can use the technology to practice a procedure before the patient encounter. This will improve patient experience and quality of outcomes. Enhanced access to health care through attracting talent to Collier County will also be among the goals. This will enhance the quality and safety of patient outcomes.

The Florida Senate Local Funding Initiative Request Fiscal Year 2022-2023

LFIR # 1139

d. Who is the target population served by this project? How many individuals are expected to be served?

Our target population is all citizens of SW FL. There are over 1,000,000 residents of our 5-county region and many visit Collier County, both within our region and across our state. Any one who needs health care while in our service region will benefit, as will visiting tourists.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Feedback provided by those who receive training at the simulation center as well as reported patient outcome measures can serve as evidence of the improved quality in training and improved health around our community.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Should the project not move forward, reversion of the appropriation will occur. If NCH fails to provide access to the public in a reasonable manner, similar action can be taken.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

NCH Healthcare System owns the facility for which the funding is requested.
