Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits	Salary support for clinicians, as well as, students, fellows and post-doctoral associates in training.	500,000
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Majo	r Renovation:	
Construction/Renovation/Land/ Planning Engineering		0
Total State Funds Requested (m	ust equal total from question #6)	500,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

To provide mental health and addiction services to residents of Indian River and surrounding counties. This is also an education site where training is provided to medical students, residents (doctors who are in their first three years of practice, supervised by senior level medical faculty) and fellows (doctors who have completed three years of residency training and are pursuing an optional additional year of specialized training) for community psychiatry, psychology and addiction specialties.

b. What activities and services will be provided to meet the intended purpose of these funds?

- 1) Training for medical students, residents, fellows and post doctoral associates in the mental health and addiction specialties.
- 2) Clinical care of patients/residents of Indian River and surrounding counties.

c. What direct services will be provided to citizens by the appropriation project?

- 1) Clinical services to meet the demand for mental health treatment and addiction treatment services to residents of the service counties.
- 2) Outpatient services including medication management, psychotherapy, psychological testing and addiction treatment.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is elderly persons, persons with poor mental health, persons with poor physical health, jobless persons, economically disadvantaged persons, at-risk youth, homeless, developmentally disabled, physically disabled, drug users (in health services), preschool students, grade school students, high school students, University/college students, currently or formerly incarcerated persons, drug offenders (in criminal justice), victims of crimes. The number of individuals to be served is expected to be greater than 800.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will

LFIR # 1360

be measured?

1) Improve mental health of children, families and senior who have decreased mental and behavioral health issues. Measure using # of unique patients served in fiscal year who received a mental health screening vs. # of those who received a screening returned to receive intervention services. 2) Improve quality of education. There is a nationwide physician shortage and psychiatrists are the 2nd most in-demand specialty after the family physician. Our training program aims to increase the number of practicing clinicians in FL. Methodology 1) Increase number of doctors trained/entering practice. 2) Increase number of doctors who practice in the State of Florida. 3) Reduce substance abuse amongst citizens in Indian River and surrounding counties. Methodology would be administrating periodic drug screens to use as comparison to # or % of negative screens of current patients being treated.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Return of the portion of any funds for which performance standards are not met or deliverables are not achieved.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the

relationship between the owners of the facility and the entity.
