Providing optimal care to young craniofacial patients to maximize their medical, dental and psychological outcomes and to maintain clinical expertise in diagnosis and treatment as an accredited ACPA Cleft and Craniofacial Center, one of only five in the state. The quality of care for patients with craniofacial differences and related disorders are carefully monitored by the team providing diagnosis, treatment planning, and treatment services. This requires (1) longitudinal assessments of the outcomes of treatment, (2) periodic team review of the clinical outcome data, and (3) team adaptation of treatment procedures when clinical outcome assessments do not reach referenced criteria.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?
