Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 1464

1. Project Title
2. Senate Sponsor
3. Date of Request

4. Project/Program Description

Established in 1959, the Science Center of Pinellas County was the premier science learning location in the U.S. for decades, serving as many as 22,000 children per year. Reactivating it will enable new generations of Pinellas children and families to immerse themselves in STEM learning while building community connections and enjoying family-friendly programming. Pathfinder Outdoor Education's expertise in experiential education, inclusive leadership, team building, collaboration, and conflict resolution position them to be the perfect backbone organization for a collective impact approach to building a science center for Pinellas County that will provide youth development and educational opportunities for children and families as well as an extension of traditional learning in Pinellas. Pathfinder will use the funding to renovate, repair, and bring up to code the existing building so all youth, especially minority, low-income, and disenfranchised will have access to STEM learning.

5. State Agency to receive requested funds
- State Agency contacted? No

6. Amount of the Nonrecurring Request for Fiscal Year 2022-2023

| Type of Funding | Amount |
|------------------------------------|------------------|
| Operations | 0 |
| Fixed Capital Outlay | 1,500,000 |
| Total State Funds Requested | 1,500,000 |

7. Total Project Cost for Fiscal Year 2022-2023 (including matching funds available for this project)

| Type of Funding | Amount | Percentage |
|--|------------------|-------------|
| Total State Funds Requested (from question #6) | 1,500,000 | 100% |
| Matching Funds | | |
| Federal | 0 | 0% |
| State (excluding the amount of this request) | 0 | 0% |
| Local | 0 | 0% |
| Other | 0 | 0% |
| Total Project Costs for Fiscal Year 2022-2023 | 1,500,000 | 100% |

8. Has this project previously received state funding? Yes

| Fiscal Year (yyyy-yy) | Amount | | Specific Appropriation # | Vetoed |
|--------------------------|-----------|--------------|-----------------------------|--------|
| | Recurring | Nonrecurring | | |
| 2020-21 | 0 | 500,000 | 3112A | No |

9. Is future funding likely to be requested? No
- a. If yes, indicate nonrecurring amount per year.
- b. Describe the source of funding that can be used in lieu of state funding.
-

Fiscal Year 2022-2023

LFIR # 1464

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

Yes

If yes, indicate the amount of funds received and what the funds were used for.

PPP - \$78,000 in 2020 used primarily for payroll as well as covering rent and employee health insurance.

11. Details on how the requested state funds will be expended

| Spending Category | Description | Amount |
|--|---|------------------|
| Administrative Costs: | | |
| Executive Director/Project Head Salary and Benefits | | 0 |
| Other Salary and Benefits | | 0 |
| Expense/Equipment/Travel/Supplies/Other | | 0 |
| Consultants/Contracted Services/Study | | 0 |
| Operational Costs: Other | | |
| Salary and Benefits | | 0 |
| Expense/Equipment/Travel/Supplies/Other | | 0 |
| Consultants/Contracted Services/Study | | 0 |
| Fixed Capital Construction/Major Renovation: | | |
| Construction/Renovation/Land/Planning Engineering | Additional funding for renovations on existing building located at 7701 22nd Ave N, Saint Petersburg, FL 33710. The current building needs to be repaired and brought up to code as well as updated to support STEM learning. | 1,500,000 |
| Total State Funds Requested (must equal total from question #6) | | 1,500,000 |

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Pathfinder Outdoor Education would like to provide an opportunity for engaging, hands-on science programs that develop curiosity and encourage learning. While partnering with local educators, astronomers, public libraries, schools, and the neighborhood college, Pathfinder could stimulate learning through the continuum of care which will result in ultimate success of future leaders. Studies show that careers in STEAM have grown 79% since the mid-1990s. Currently, St. Petersburg has no science-focused informal learning organizations. The already existing location has a Title 1 middle school along its property line and, with an existing relationship with Pinellas County Schools, would like to use the existing property to engage the middle and high school age children with the excitement of science in hopes to stimulate the need of STEAM in the community and future.

b. What activities and services will be provided to meet the intended purpose of these funds?

The additional requested funds will be used solely to get the building located at 7701 22nd Ave N, Saint Petersburg repaired, renovated, and up to code. Pathfinder Outdoor Education is prepared to seek private support or grant funding for other expenses.

c. What direct services will be provided to citizens by the appropriation project?

The Science Center will be a space where hands-on, discovery-based learning and STEM enrichment fuel inquisitive minds and enthusiasm for all things science. A place where all children, adults, and families can go to observe, analyze, and explore the life sciences. A coalition of service providers will provide a matrix of programming, events, and classes in STEM/STEAM that will enhance the standard learning in Pinellas County schools and prepare children and young adults for careers in STEM/STEAM jobs.

LFIR # 1464

d. Who is the target population served by this project? How many individuals are expected to be served?

Children, adults, and the families of Pinellas will be welcome to participate in the programs, events, exhibits, and classes held at the science center. Programming will also provide specific opportunities for day camps and summer camps open to residents and to tourists looking to enroll children in fun and educational activities while visiting Pinellas County. Opportunities for exposure to STEM/STEAM learning and career paths will be especially extended to minority, low-income, and disenfranchised youth in Pinellas County.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Pinellas has a higher percentage of low-income workers than the national average. Building wealth through higher paying jobs is the path to a better future for the county and the region. Exposing youth to STEM fields at the center is an important first step on a pathway to a variety of career paths that pay well and increase the overall prosperity of the community. Careers in STEM and STEAM have grown 79% since the mid-1990s. These education opportunities will lead students directly into a STEM pipeline of needed labor in the Pinellas market. Students who move into STEM careers out of high school and college make more money than their non-STEM counterparts. Workers with STEM training and skills are in very high demand now and that demand is only expected to increase in the future.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Standard contract penalties are sufficient.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The City of St. Petersburg owns the building that will be renovated.
