Fiscal Year 2022-2023

Funding for women's residential treatment is severely underfunded in Florida. In our service area a woman can wait up to 90 days for a treatment bed. Our local behavioral health consortium has selected the pursuit of state funding for residential treatment as their number one priority for adults. If state funding were not continued, services would need to be suspended until another source of funding was explored.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

No

If yes, indicate the amount of funds received and what the funds were used for.

a. What specific purpose or goal will be achieved by the funds requested?

The goal is to increase access to Level 1 inpatient residential treatment services for women with a substance use disorder by funding 6 beds at the St. Johns EPIC Recovery Center. This funding request will address the specific unmet need for women's intensive, person-centered treatment services as identified by community providers of child welfare, domestic violence, and health care services.

b. What activities and services will be provided to meet the intended purpose of these funds?

A specialized therapeutic modality will be implemented that addresses women-specific issues including trauma, grief and loss, self-esteem/body image, anger, familial relationships, and co-occurring mental health concerns of anxiety, depression and eating disorders. Our residents will also receive care coordination, peer support, life-skills coaching, parenting, and recreation/art therapies.
