12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The overall goal is to replace 4 miles of vulnerable transmission main in the Florida Keys. This main is the backbone of the Keys water system.

b. What activities and services will be provided to meet the intended purpose of these funds?

Replacement of vulnerable transmission main in the Florida Keys which serves as the backbone of the Florida Keys water system.

c. What direct services will be provided to citizens by the appropriation project?

Breaks in this aging/corroding pipeline can lead to lengthy repairs/interruptions of service throughout the 4 mile stretch downstream of the break, negatively impacting critical facilities and creating the potential for contamination and associated health effects as well as the public health risks associated with inadequate water for sanitary uses.

d. Who is the target population served by this project? How many individuals are expected to be served?

All residents and visitors in the Florida Keys will benefit from the completion of this process.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Replacement of vulnerable transmission main will reduce lengthy repairs and interruptions in service throughout the served area.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

LFIR # 1618

If performance measures and deliverables are not met, withholding of funds is the recommended penalty.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The Florida Keys Aqueduct Authority is a Special District of the State of Florida
