The streets will have less standing water so residents can access the roadways to their properties and not have water intrude into their homes, garages, and septic systems. The outcome may be measured by inspection of streets during rainfall events and high tides. Additionally, the reduction in the amount of complaints received.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Loss of funding.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.
