Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2132

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

The Drainage and Roadway Improvement projects address a low lying area within the City that does not contain an existing drainage system. Consequently, during the rainy season, this area has expansive flooding of the roadway, and often results in property damage to adjacent businesses and residential homes. These roads provide access to a health facility and other critical services for the community. The saturated soil, the low lying conditions, and the higher water table are all factors that exacerbate the flooding and untreated Stormwater worsens the City's water quality. The resultant ponding hastens mosquitoes, litter and potential contamination of the City's sanitary sewer system, creating a health hazard.

This funding would enable the City of Opa-locka to address this flooding and associated issues by constructing an adequate Stormwater drainage system, reduce pollution and provide adequate treatment of runoff discharge for improved water quality.
