## Local Funding Initiative Request

### Fiscal Year 2022-2023

LFIR # 2239

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Scott Dispersed Water Management, LLC (BDWM) signed a contract to store water on 7,664 acres in the C-25 basin with the South Florida Water Management District (SFWMD) on December 27, 2018. The expected annual benefit was modeled by SFWMD to be 29,005 acre feet per year. Commencement of construction of the projects didn't begin until October 2020 and was completed in October 2021.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2022-2023

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	1,035,000
<b>Total State Funds Requested</b>	<b>1,035,000</b>

7. Total Project Cost for Fiscal Year 2022-2023 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	1,035,000	50%
<b>Matching Funds</b>		
Federal	0	0%
State (excluding the amount of this request)	1,035,000	50%
Local	0	0%
Other	0	0%
<b>Total Project Costs for Fiscal Year 2022-2023</b>	<b>2,070,000</b>	<b>100%</b>

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

If yes, indicate the amount of funds received and what the funds were used for.

### Fiscal Year 2022-2023

LFIR # 2239

#### 11. Details on how the requested state funds will be expended

Spending Category	Description	Amount
<b>Administrative Costs:</b>		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
<b>Operational Costs: Other</b>		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
<b>Fixed Capital Construction/Major Renovation:</b>		
Construction/Renovation/Land/Planning Engineering	Additional Costs to engineer , model benefits and construct	1,035,000
<b>Total State Funds Requested (must equal total from question #6)</b>		<b>1,035,000</b>

#### 12. Program Performance

##### a. What specific purpose or goal will be achieved by the funds requested?

The purpose of the funding request is for reimbursement of additional funds expended by BDWM between the contract signing and commencement of operations. The expenses consist of 1) significant additional engineering and modeling costs mostly due to SFWMD making changes to the project and its expected benefits; 2) Additional expenses due to the continuing negotiation with Florida Fish and Wildlife (FWC) and the US Fish and Wildlife (USFWS) for a programmatic "safe harbor" to allow the landowner who enters into a long-term water storage project that will attract wetland type species to go back to agriculture. This agreement can be used by all landowners in the northern everglades watershed and was signed by both FWC and UFWS on October 16, 2020 which allowed construction to commence.

##### b. What activities and services will be provided to meet the intended purpose of these funds?

Additional construction expenses were necessary as bids for the project were over approximately three years old by the time construction began as well as unforeseen circumstances due to the extremely large size of the project and its very small construction budget of \$3,250,000

##### c. What direct services will be provided to citizens by the appropriation project?

Water storage for Floridians

##### d. Who is the target population served by this project? How many individuals are expected to be served?

Citizens of Florida

##### e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected annual benefit was modeled by SFWMD to be 29,005 acre feet per year.

##### f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?
