12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The purpose of this project is to extend potable infrastructure and fire hydrants into unincorporated areas for fire protection and increase the public safety through fire protection

b. What activities and services will be provided to meet the intended purpose of these funds?

The construction of approximately 39,823 linear feet of potable water mains and approximately 113 fire hydrants within unincorporated areas.

c. What direct services will be provided to citizens by the appropriation project?

The unincorporated areas do not currently have fire hydrants on the streets. This project would greatly increase public safety as it would increase fire suppression.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population would be those currently residing in and adjacent to the unincorporated areas.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit will be fire suppression in the unincorporated areas and the reduced risk of fire spreading from the unincorporated area to the adjacent neighborhoods.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?
